LETTERS OF DISMISSION.

Georgia, Lumpkin County. A. R. Bishop, of Hall county, Ga., as executor of the will of W. A. Burnside, late of said Lumpkin county deceased, and as testamentary guardian of Thomas E. Burnside, Mary E. Williams (formerly Mary E. Burnside) and James W. Burnside, all of said legacies being now twenty-one years of age, having filed his petition for discharge from his said trust, this is to cite all persons concerned to show cause if any they can, on or before the first Monday in October 1900, why letters of dismission should not be granted to said Bishop as prayed for. This 2nd day of July, 1900. W. H. C. TATE, Ordinary.

Ankylosis.

The following letter is copied from the Atlanta Journal-Record of Medicine written by Dr. N. F. Howard, of Dahlonega:

Ed. JOURNAL-RECORD OF MED.: When Dr. F. W. McRae, of Atlanta, was in Dahlonega in 1890, to see a little patient with hip-joint disease, he made the statement in substance that if a healthy joint was confined and bound and kept in this state in an easy position for months and even years, ankylosis would not take place in said joint, but if unbound and set free it would assume and perform its healthy and normal functions, and that ankylosis could not take place when inflammation or a diseased condition of the joint existed. This remark of Dr. McRae's brought up to my mind many cases of persons who claimed to have stiff joints but did not. Permit me to mention one case that will illustrate many others, to-wit: When at Vicksburg in 1863, as surgeon of the fifty-second Georgia regiment, a soldier, Private —, who had been absent many months without leave, was returned to his command and made application for a discharge from the army on the ground of disability to perform military duty. The medical officers investigated his case and examined his condition. We found one arm carried in a swing bandage. The soldier complained of rheumatism and pain and stiffness of said arm from his shoulder to his hand. The skin was tender and of a flesh color, and the arm had the appearance of having been in a bandage for months, and the hand and forearm were brought across the chest at right angle with his arm. He claimed the elbow was stiff, and that it gave him great pain to try to straighten the arm. We made the effort to do so, however, and we found that it took more doctors than one to do anything with him. He made such complaint of the pain and suffering that it gave him, that he was turned loose and put on light duty, which was to look after the camp and so forth. As soon as this soldier could do so, he left the command and went to the other side. Two years after this, when peace was concluded, we met him in Dahlonega and his arm had been restored to a state of perfect health, as we had observed in many other cases thus affected.

A DWARFED MEMBER OR ORGAN OF THE HUMAN BODY. I ask this question: Will a member or organ of the human body, bound and kept in that position from childhood to a state of maturity, if unloosed and set at liberty, grow and increase in bulk so as to assume the normal functions of full-grown manhood? We know that in the case of the solid organs of the body such as bones, they will not, as is shown in the treatment of the feet and heads of children of Chinamen; but we will ask about the lobes and soft organs of the body, as the liver, lungs, tongue and others. Here we wish to state the case of a tongue, dwarfed in childhood. This was a grandchild of ours twenty months old. This mother brought him to our house at that time to remain with us, and claimed that the child was tongue-tied, and wished us to clip the frenum, of the tongue so that the child might talk. On examination of the tongue, we found the mouth full of well set teeth, but that the tongue was very small and short and could not be protruded beyond the teeth, and that the child could utter but very few words, such as pa, ma, eat and other very simple words. On enquiry we found that the child had been fed by hand, as it could not nurse its mother. At the age of sixteen months this boy, Howard Stonewall Howard, was taught by his parents to drink milk from the cup and give up the bottle; but as soon as he would eat he would cry for his rubber nipple, and kept it in his mouth and nursed it from one meal to another. I decided that this was the cause of the tongue's being so dwarfed, and directed that he should not be allowed to use the rubber nipple any more. This direction was complied with. In one month a very perceptible improvement was discovered in his speech, and he could utter many words. The improvement has continued up to this time, and now he can talk as well as any child you may meet with, two years old, and we find, on examination of the tongue, that it is well grown in size and length, and has no need of being clipped for being tongue-tied, as it can now be protruded well out of the mouth beyond the lips.

Do not we physicians often commit an error in clipping the tongue at too early an age, and not giving it a fair chance to grow and overcome the seeming trouble? My fifty years experience and observation teach me that fact. Now we ask again, would these soft organs, such as the tongue, after being kept bound till maturity, regain their wonted size and usefulness? We have seen children suck their thumbs until they were well nigh grown, and the thumb they sucked would be one-third smaller than the other; but we are not informed whether the dwarfed thumb ever grew enough to catch up in size and usefulness with the other.

We have written this communication to call attention to the subject of ankylosis and a dwarfed condition of the soft parts of the human body, and to ask the brethren of our profession to give attention to this subject in their practice with children. N. F. HOWARD.

For years many of the people of White, Lumpkin and even other counties would drive their cattle across the mountain to graze during the summer season, some times carrying in diseased cattle that would cause the death of many over there. One year a certain gentleman from White county carried an old distempered cow across the Blue Ridge which killed not less than 25 head of cattle. This caused Union citizens to have a quarantine raised, little thinking that it would inconvenience them about as much as the citizens of other country. But it does. No one can even come or go with cattle across the mountain any more. Hereafter all those having no horses or mules cannot come to market with ox teams in this direction. It is a great deal worse than the stock law for a man can drive cattle through it.

Already eight different parties have met and put out a candidate for president of the United States as follows: Socialist Labor Party, Social Democratic Party, United Christian Party, Peoples Party (Union), People's Party (middle of the road), DeLeon Socialists, Republican Party, Prohibition Party, Democratic Party. Now take your choice.

J. F. MOORE

Held her Tongue.

The other day I heard of a man of the name of George Gould living at New Rochel, N. Y., whose wife has lived in the same house and sat at the same table with him without speaking to him for more than twenty years. They were married in 1868 and have four children who are grown and three of them are married. About twenty years ago husband and wife quarreled and the latter, becoming angry at one of the remarks, declared that she would never speak to him again until he apologized. He is too stubborn to apologize and she has become accustomed to silence. They sleep and sit and eat together like other husbands and wives. They drive to town in the same buggy, occupy the same pew at church; she mends his stockings, sews the buttons on his shirts and fulfills all the other wifely duties in the ordinary commonplace way, except that of conversation and the husband has become accustomed to the situation by long experience. He talks to her without reserve but when it is necessary for her to communicate with him she does so through her daughter, who lives with them and plays the part of telephone for the old lady.

And yet people say that a woman can't hold their tongue.—Chicago Record.

Cleveland Courier: The mail routes leaving here for different points have been bid down so low that the P. M. is having to employ temporary service on some of them. This should teach bidders in future that they cannot carry mails on a stack of bones with a horse hide thrown over them to hide their ugliness.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that can not be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by all Druggists, 75c. Hall's Family Pills are the best.

Young Women

The entry into womanhood is a critical time for a girl. Little menstrual disorders started at that time soon grow into fatal complications. That female troubles are killing graveyards proves this. Wine of Cardui establishes a calm and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Many women, young and old, owe their lives to Wine of Cardui. There is nothing like it to give women freedom from pain and to fit young women for every duty of life. \$1.00 bottles at druggists.

Miss Della M. Strayer, Tully, Kans. "I have suffered untold pain at menstrual periods for a long time, was nervous, had no appetite, and lost interest in everything. In fact was miserable. I have taken four bottles of Wine of Cardui, with Thedford's Black-Draught, when needed, and to-day I am entirely cured. I cannot express the thanks I feel for what you have done for me."

For advice in cases requiring special directions, address giving symptoms, The Ladies' Advisory Department, The Chattanooga Medicine Company, Chattanooga, Tenn.

We were in error in saying last week that court commenced at Dawsonville last Monday. It convenes next.

An Ohio woman recently gave an ice cream supper to defray the expenses of her husband's funeral. What next?

Geo. W. Walker, Jr., has been appointed precinct representative by the chairman of the national democratic party.

The Presbyterian church in Gainesville was struck by lightning last week, doing but very little damage however. It had lightning rods but they seemed to be no protection.

The strikers are causing hard times in New Orleans. One day last week 500 special policemen were sworn in so as to restore order assisted by 1,500 of the state militia. The white and black element are at outs and the negroes were shot and beaten wherever seen.

Atlanta is having a good deal of trouble about her water power supply. Some times the city is dry for hours on account of the cripple machinery of the water works and if a fire was to start when in this condition it would sweep the city. She is certainly in a very dangerous condition but it is hoped that no accident of this kind will occur until matters can be remedied for Atlanta is one of the most wide awake cities in the south.

Politics are getting very warm in Lumpkin county now. The democrats are using every effort to get as good a turn out as possible to the primaries on the 15th. We have heard of some who say that they will vote in the primary but if they don't get their men they will not stick to it. All such should not take a part in the primary for those who vote in the primary are honor bound to support whoever is the choice.

The series of democratic rallies commenced in Lumpkin county last Friday at Yahoola law ground which will continue from day to day until one is held in every district in the county except Jones' Creek, there not being enough democrats in this district for a corporals guard. Candidates and others present at Yahoola numbered only about 50, people being too busy now to attend any kind of a rally. Mr. McAfee was the order of the day.

The editor who can please every one, truthfully says an exchange, is not fit for this earth, but is entitled to wings. Human nature is constituted so that some like scandal, some don't like to see others ripped up the back, others don't like to see faces exposed, others don't like to see the truth told about them, others don't like to take their paper seven or eight years never miss an issue and never pay a cent, and get mad and stop their paper if they get a statement of their accounts, others don't. It is some consolation to know that the Lord himself failed to please everybody while on earth.

Most newspaper men are familiar with the man who "takes more papers than he can read" and consequently has no use for his local paper. He takes a paper published at Augusta, Maine which contains all the news about the "smuggler's last cruise," "the handle king," "big Mose in dead gulch," etc. While he is storing his mind with such valuable information, his wife is reading an almanac. But that man gets into trouble and he rushes to the local paper to get him out. If a relative dies, he wants a column obituary, yet he "takes so many papers" that he could not subscribe for his local sheet. This is the man that always wants a fifteen line puff, "just to fill up, you know."—EX.

There was quite a decline in the price of corn in our market this week. Some only bringing 60 cents per bushel Tuesday.

A horse kicked W. H. McAfee on the left leg the other day and came near breaking it. It is difficult for him to walk with a stick even.

A saw mill is being put up near the Rice Arrendale place. This shows that some improvements are going to be made in the lower part of the county.

We know of a lady in this county fifty-nine years old who has cultivated some twelve or fourteen acres in corn this year with the assistance of no one but a little boy.

Even the blockaders are learning something. They have learned to put in much water and a good deal of potash which makes it very strong. But who unto the fellow that drinks it.

The four young ladies who were in Tan Yard Branch bathing last Wednesday had better take their bathing suits next time unless the water was deeper.

The following language written by D. S. Williams, of Moranci, Mich., shows how our northern friends appreciate the Nugget. "As my subscription expired the 27th, I will enclose one dollar to renew it. I do not want to miss the paper."

When you want your babies pictures taken go to Davidson's gallery on College st. To introduce his work he holds himself responsible for all movements of children and does not charge for extra plates. His opening hours are for children 9 a. m. until 8 p. m.

Our old friend Jas. J. Shoffitt, who resided in Frog Town district died last Monday and was buried at Town Creek church in White county the following day. He was a good old man, every body liked him in his neighborhood and he will be greatly missed.

Col. J. H. Moore, who has been spending some time in Nashville, returned to Dahlonega last Monday to attend a directors meeting of the Crown Mountain Gold Mining Co. General Warner, president of the company, and L. K. Donovan, both of Ohio, were on hand.

It is getting to be a bad matter for blockaders in this section to give bond now on account of so many of them forfeiting their bonds. Deputy Marshal Grizzle told us this week that he now has several thousand dollars in it against parties in this section caused by forfeitures.

Come along and see the big pile of papers we make into NUGGETS every week. If we can't show you that this paper has the largest circulation and is read by twice as many people as any other paper ever published in the county we will not charge you anything for your ad. nor announcements. Isn't this fair?

Camp meeting commences at the Dahlonega camp ground next Monday and will be in session one week which will be a nice place for those who wish to take a weeks rest from city life. That's all, for if the religion that is gotten this year at camp grounds were in a liquid state it wouldn't fill a match box. Two much politics.

P. Strickland, of Dawson county, dropped in to see us while up last Monday. Mr. Strickland says that but very little corn will be made in his county on bottom lands as it was about all drowned out by the river rains. Besides this trouble taxes are high down there. Last year they were one dollar and thirty-three and a third cents on the hundred and this year they will likely be \$1.50. Mr. Strickland says that politics are very cool in Dawson. No primaries will be held by either party. They will vote for the men regardless of politics so as to see if they can't get good financiers hold of county matters and relieve them of their heavy taxes.

Capt. Asbury and Col. Joe Underwood of White county were in the city on Wednesday. The Colonel is a candidate for the legislature and the Captain is trading on gold mines.

Quite a while many people were in doubt about the boom in Dahlonega being a permanent one but now that the new process of mining at the Hand has proven a successful undertaking there is no longer any more doubts and we will all live and do well.

By perusing our columns this week you will find the announcement of Lewis M. Wells, who is a candidate for sheriff. Mr. Wells was born and reared in Lumpkin county. Is bright and intelligent and is fully competent to discharge the duties of such office well.

By referring to our advertising columns you will find the announcement of V. A. Higgins as a candidate for representative on the independent ticket. Mr. Higgins is fully competent to represent the county, being both a school teacher and a minister and is a good man.

Mr. Southern will make another effort to organize a singing convention at the Dahlonega camp ground on the third Sunday in this month. Prof. John B. Vaughn, the one who makes the books, will be on hand, and a big crowd is expected if the weather is good.

Benj. F. Anderson comes to the front this week with an announcement for the office of county treasurer. He holds this office at present, and has performed the duties well. This no one can dispute. He has a host of friends and will make it very interesting to whoever is selected at the democratic primary.

Your attention is directed to the announcement of W. H. C. Tate in this issue who is a candidate for re-election to the office of ordinary. Mr. Tate has been acting in this capacity for four years, always having a watchful eye in the interest of the county and by his zealous efforts has got the county out of debt, being the first time in the history of the county since we can remember.

News reached Dahlonega last Monday afternoon of the murder of another man in Dawson county, being Sol Crain who was killed while they were at work on the road that morning by Andrew Bryant who struck Crain twice on the side of the head with a mattock, knocking his brains out, causing death in four hours from the time the blows were made. Crain was drinking at the time which is said to have caused the trouble. Bryant was arrested without any trouble.

The preliminary report of the commissioner of internal revenue on the operation of the bureau for the fiscal year ended June 30, 1900, shows that the receipts from all sources of internal revenue for the year aggregated \$295,315,107, which amount included \$602,362 tax on money orders turned over by the postmaster-general to the collector for the district of Maryland, and for which no expense for collection was incurred, making an increase of \$21,731,594 over the receipts for the fiscal year ending June 30, 1899.

Hall Superior Court has been in session about two weeks and Solicitor General Charters is making it quite lively for the criminals. Chapman, charged with being connected with the burning of Meaders & Quillians mill in that county some years ago, was found guilty and sentenced to the chain gang two years, being recommended to the mercy of the court by the jury. A motion has been made for a new trial and if it is refused the case will go to the supreme court. This makes the fourth jury that has tried him for this same offense. Got plenty of money we suppose. If he hadn't enough to interest his lawyers they would have turned him over to the chain gang authorities long ago. Will Evans is on trial now for the murder of Merck.

SUMMER COLDS

are noted for hanging on. They weaken your throat and lungs, and lead to serious trouble. Don't trifle with them. Take Scott's Emulsion at once. It soothes, heals, and cures.

We are authorized to announce the name of V. A. Higgins as a candidate to represent Lumpkin county in the next legislature subject to the voters at the general election.

Thinking the people of Lumpkin county for past years I announce myself for re-election to the office of county treasurer subject to the October election. Promising you if elected to discharge the duties of such office to the best of my ability.

B. F. ANDERSON.

I respectfully announce myself a candidate for sheriff of Lumpkin county, and I solicit the support of the voters of said county at the general election, to be held on the first Wednesday in October next.

LEWIS M. WELLS.

Feeling thankful to my friends for their support in the past I now announce myself as a candidate for re-election to the office of ordinary and solicit a continuance of their support in the election which comes off on the first Wednesday in October. I desire the approval of my administration at the ballot box. **W. H. C. TATE.**

Democratic Rallies.

Public speeches will be made and all candidates will be present at the following places at 11 o'clock on dates mentioned:

DAHLONEGA, AUGUST 3, 1900.

Mr. Henry King and Miss Lou Bridge were wedded in Dahlonega last Sunday night.

A little fifteen months old child of 'Wm. Jackson died Saturday night near Jones' Chapel.

The ministers are not haying much to say about sending missionaries to China now.

Julius Roberts was slightly injured the other day by a cave in a tunnel on Crown Mountain.

We notice the strange faces of many people in Dahlonega every day looking over our prosperous country.

A lot of rotten eggs from Dawson county last week went pretty fast for awhile at seven and a half cents per dozen in the Dahlonega market.

Dal Loggins, who was bitten by a snake several days ago has not recovered sufficiently to return to work yet. He says that the flesh is rotting out.

The Nugget's new list of subscribers is starting off right nicely for the month of August. Continue to come or send in and let this good work go on.

You will see from our list of new subscribers elsewhere for July that the Nugget's health is very good. Let those that are not taking it come or send in at once if they wish to hear all the news just as it occurs.

Bill Denny, of Dawson county, was bound over last week for making corn juice contrary to the laws of Uncle Sam. Alfred and Noah Watkins, also residents of Dawson, went the same route and quite likely will be the guest of Uncle Sam for some time.

Some fifteen or twenty visitors were down from Porter Springs on last Monday looking at the mines. Some of them had never seen a gold mine before and it was certainly a very interesting for them to see 120 big heavy stamps running under one roof.

Some of the members of the council will give an order for a little job of work to the other office since becoming miffed at us because we spoke the truth and brought many beneficial changes about, and wait two or three weeks for it when they could have it done at the Nugget office and delivered in less than a half day. This shows that they have an eye more to prejudice than to business and are not suitable to carry on the business of the town. Besides this when a vacancy occurs, selecting some one that could not be elected by the people, regardless of moral character or anything else—matters not if they make do to men's wives, when if it was a country editor or some other poor devil he would be to play. This is one reason the churches are not more prosperous here. Some of them will serve the Lord at the church house and work for the devil while away.

Dahlonega is so she can communicate with the outside world by telephone. Now let her citizens do their part and it won't be long until she is also connected by rail. This is a very important matter, one which should be considered at once while the Consolidated Co., or some of its members are in the notion to build it. Some of you may put off giving the enterprise any aid until they might abandon the idea. Then it will be too late. Remember that it requires the entire strength of the city and county to make a long pull and a strong pull to accomplish anything, more especially a railroad. There has already enough been said about the many advantages of a railroad to Dahlonega, now let us take something more than talk to build a railroad. These capitalists have already done great things for this country, now let us show by our actions that we appreciate it and don't expect them to do it all, and are willing to help what we can.

There is no trouble in experienced miners finding work here now.

The public roads throughout the county are in dreadful bad condition.

The building boom is still on in Dahlonega and mechanics hard to get.

There will be a much better corn crop in this county than was expected for awhile.

Low cut shoes, straw hats, fans, lawns, etc., at greatly reduced prices at Frank L. Reeses.

The recent rains have washed out the roads so bad that the Gainesville mail nor nothing else can either go or come on time.

There is a new remedy for ingrowing toe nails now that is perfectly painless, call at this office and we will tell you what it is.

We are glad to see Charlie Hope who was kicked by a horse some time ago, able to resume his duty on the Gainesville and Dahlonega back line.

Bill Dotson, who was charged with disorderly conduct after remaining off some time came in last Monday and was fined six dollars and cost by Mayor Price.

Judge Tate says that owing to such an increase in the value of taxable property in this county he thinks he will be able to still make a reduction in taxes and get along all right.

The heavy rains of Friday afternoon did considerably damage to the growing crops, fences, etc., in many places, in this county. The clouds divided here which caused the water fall to be maddest in Dahlonega.

The long distant telephone line from Gainesville to Atlanta was completed last Friday and now the citizens of Dahlonega can talk to their friends in that city more than one hundred miles only at an expense of 45 cents for about a five minutes conversation. And even on up to Porter Springs, ten miles farther they can do the same by paying only ten cents more. The visitors up there have certainly been keeping the wire hot since its completion. It is certainly a great convenience.

An electrician was sent for from Atlanta who got things in shape and the Hand mill and a portion of the streets in Dahlonega were lit up by electricity for the first time Monday. It was a surprise to most of our citizens to see the light blaze up in the city for it had been reported there was not sufficient power just now for this purpose. Most of the lights will be in the city while others were a failure. But quite likely in the near future everything will be put in trim for the Consolidated Co. thus far have done everything they have undertaken. That is if the city pays them for it.

A certain man residing in the outskirts of Dahlonega made up a keg of blackberry wine a few days ago for "medical purposes." After filling it he securely stopped the vessel and placed it away up stairs in his building for the purpose of letting it "get ripe." The other day a loud report like dynamite was heard in his house, causing the occupants to become alarmed and run out for they couldn't imagine what it could be. A later investigation proved that he had stopped the keg too tight and when the juice got to working it busted out the head and now he will have no wine of his own make.

Are you still of the opinion that the railroad will be built whether you give anything or not? You will see by waiting. We were all led to believe that we were going to have electric lights long ago in Dahlonega. Shade trees were cut and carved, the wires were stretched and the lamps were swung in position but they are hanging there lightless until the city council uses enough greenback and silver to satisfy the Consolidated Co. People don't spend their money free. They won't give us either lights or a railroad unless we help. We can't expect either for nothing, or shouldn't do so at least.

Are you still of the opinion that the railroad will be built whether you give anything or not? You will see by waiting. We were all led to believe that we were going to have electric lights long ago in Dahlonega. Shade trees were cut and carved, the wires were stretched and the lamps were swung in position but they are hanging there lightless until the city council uses enough greenback and silver to satisfy the Consolidated Co. People don't spend their money free. They won't give us either lights or a railroad unless we help. We can't expect either for nothing, or shouldn't do so at least.

Mrs. Ben Anderson, who has been sick for some time is recovering.

J. E. Meaders, of Swainsboro, Ga., is up on a visit accompanied by his family.

A new line of shoes, calicos, dress shirts, boys and gents collars, at J. E. Tates.

The dwelling of merchant Frank Jones will soon be completed and he and his wife will soon be at home.

If you need any type writer or want any job work call at this office. A large, nice lot of stationery just received.

P. Davidson, the new photographer, is taking some nice mining views. If you desire any of the photographs call on or address him at Dahlonega, Ga.

We have frequently heard it said that if it rained the first day that it would rain every day for forty. The woods being full of candidates and a long wet season is going to be hard on our citizens.

F. C. Meaders who accompanied F. G. Thomson a few days ago to his home in the north has returned to Dahlonega well pleased with the manner in which he was entertained by Mr. Thomson in the city of Toledo.

On Thursday of last week during a storm some of the hands were shook up right lively by electricity. Lightning struck a pine tree on Crane's Hill during the same storm, but no one was injured anywhere.

When your subscription to the Nugget expires please renew at once if you wish the paper continued. Some of you may be very wealthy but that does us no good unless we have one of your dollars in our pocket.

Ed. Jones, who was carved up some weeks ago in this county by Henry Cannon, was carried to Gainesville last Saturday by the Sheriff on a warrant sent up from Issa county charging him with an assault with intent to murder.

An old fellow sold one of Will Tolberts boys some liquor the other day made from corn touched ed up with chemicals and when the father got hold of the experts shoulders he imagined that he had come in contact with a shocking machine. It is said that this liquid is so mean that after a person takes a few drinks of it his eye balls run out on stems resembling two shawl pins.

We are informed by G. W. Lewis that the girl who was with the man the other Sunday, going up the Cooper Gap road in search of a preacher to marry them, was his daughter. He says the man was Henry Martin living in Hall county, who has a living wife and six children. He got his license here and after being married by Rev. John Rider passed on to another clime.

C. E. Gray, an up to date photographer from Columbus, Ga., was up latter part of last week looking at the mines and taking a bird's eye view of Dahlonega with a view of locating here and going into business in the fall provided he becomes satisfied that it will pay him to make the change. During his stay here he spent an hour or so in the Nugget office and showed us quite a lot of sample work as evidence that he thoroughly understands his work.

We understand that there is a certain blockader, located in this county a short distance above Jay who is manufacturing stuff called liquor that is almost hot enough to set the woods a fire. By putting in buckeye and first one stuff and another he makes three and a half gallons out of a bushel of corn when two gallons is the usual amount. It has already killed one man and has made others so crazy that they don't even know their mother-in-laws. A man who will make such stuff as this ought to be tarred and feathered and a match applied while he is hanging up by the toes.

Mrs. Strickland has just received a nice lot of skirts, waists, ribbons, etc.

Will Campbell had a mess of sweet potatoes one day last week being the first that we have heard of here this season.

Mrs. Tilda Findley is having a right severe spell of sickness but we trust that she will soon regain her health.

R. N. Smith, who has been here doing carpenters work for more than six months has returned to Gainesville.

E. Fields, of Statesboro, Ga., is up on a weeks visit looking over the mines. Mr. Fields is engaged in the turpentine business.

How cheeky some people are. A fellow asked us to mention a gold vein which had been discovered on his property. Not long ago we asked this same man to subscribe for the Nugget and he said that he didn't have time to read it. Now we are so busy that we haven't time nor space to mention his gold vein.

Some of our merchants may not think so but they are injuring their business by buying a whole lot of rotten eggs and selling them at good prices, and at the same time knowing that they are rotten. There is a very easy way to find out about rotten eggs and you are responsible if you don't investigate the matter. Rotten eggs are not very good for a 'nog neither are they desirable for a cake.

A miner said the other day that he had no property and the railroad would not benefit him. Men that talk this way have not given the matter due consideration. It would greatly reduce the freights on goods and be a considerable benefit to every man, woman and child in this whole country. Take meal for instance. It can be bought either in Gainesville or Jasper at from sixty or sixty-five cents per bushel, and it is hauled from Gainesville and sold here at ninety cents per bushel. Twenty-five or thirty cents on the bushel would be a right nice saving.

A singing convention was to have been organized at the camp ground last Sunday by Mr. Southard, of Forsyth county, but it rained so that but few people went out. We were on hand, not to sing but to listen, and enjoyed ourselves very much, for the gentleman is an excellent singer. He didn't try to imitate any kind of a mocking bird but furnished old time good music. Had some who try to sing in the churches here heard him they would never time up voices in an operative manner any more. At noon we dropped in to J. B. Clements', and enjoyed a splendid dinner. Mr. Clements is not only a good miner but a splendid farmer and raises every thing produced on a farm and keeps up with the progressive age. He is building him a nice residence which will soon be ready for occupation.

It is a very good thing we suppose that camp meeting comes off so early—next week, so that some of them can get their annual religion. (?) No longer than last week a couple of blockaders—one from Dawson and the other from this county came into Dahlonega with a supply of the well loved mountain juice. We are told that they stopped at a certain Baptist sisters house who from outside appearances believe in that faith. The next day an official was notified of the arrival of these blockaders who made an investigation and found the doors closed, the curtains down and all supposed to be sleeping the sleep that knows no waking until "the communion" was over. We are of the opinion that the ministers had better make an effort to purify the churches before they make a move for any additions. Neither should they waste any time in looking after the heathens until they spare more time in looking after the Americans near or home.

Mining Notes.

Mining is looking up considerably down in the lower part of the county. Much development work is being done and we may expect to hear of many discoveries.

Down on lot 810 after doing some placer digging in old works they cleaned up one hundred pennyweights of nice gold. They didn't know the art then of saving or getting all the gold like they do now.

The Consolidated and Standard Co's have 450 hands employed and the Crown Mountain has 240. This gives the reader some idea of what is being done about Dahlonega in the way of gold mining.

On the Stegal property striking the rich vein recently has caused them to discontinue working on it and are hunting others with a good prospect of finding them as this property is known to be very rich.

Twenty-five pounds of gold was cleaned up after a weeks run last week down at the Hand, and the sulphurets are to be worked yet. This is pretty fair evidence that mining will pay in Georgia, especially in Lumpkin county.

Capt. Adams informed us that the Findley chute was struck a few days ago. The bad air makes it impossible for them to work it until arrangements are made to get it out. A survey has already been made to cut another tunnel or shaft.

While some of the members of the company controlling the Briar Patch property were down from the north last week they didn't have time to remain until a clean up could be made and a partial one of a sluice ditch was made and 70 pennyweights of gold were taken out.

But few southern ladies take any interest in gold mining, but since the death of her husband in 1898 Mrs. B. Smith, of McDuffie county, has been giving her mine her personal attention and is making it pay. This mine has already been worked to a depth of 160 feet. When women can make deep mining profitable there is no danger of a man failing.

Mr. Danforth the manager of the famous Longstreet Gold Mine, is preparing for the erection of a stamp mill at an early date on his property. We were carried last Monday over the property and found many new and interesting features. A new canal 200 rods long has been cut, intersecting with the flume line near the mill and aids materially in carrying the ore to the mill.—Cleveland Courier.

They are not running the mill down at the Steward but are engaged in taking out ore and doing placer work which shows up well and very satisfactory to the owners. They have already between three and five hundred tons of splendid ore out, much of it showing gold and that that doesn't you can take and beat it up and you will not be long in finding that the yellow metal is there and that in paying quantities.

Everything presents a lively appearance down at the Hand both day and night. The mill never ceases running for an entire week up to twelve o'clock Saturday night unless it is to dress the plates or for a clean up. These clean ups are becoming very interesting now as well as pleasing to the eye of all interested parties. And the mill formerly known as the Mary Henry will soon be in running order. Ore is being taken out of the tunnels and shafts both day and night and at such other places where night work can be done. Soon as Mr. Scott got the building done and everything in running order, at shaft No. 1, he put his mechanics at work in constructing another large shaft house at No. 2 which is being pushed as rapidly as possible as no work can be done in it until the building over it is completed. The various kinds of work are in charge of the most experienced men that can be had so as to cause no trouble or delay on this line.

The Crown Mountain, in addition to mining both hard quartz and saprolite ore, which can be mined and milled by hydraulic method, are beginning deep mining, although there is already enough pay ore in sight which can be mined and milled at a cost of less than 15 cents per ton by a mill of 500 tons capacity every twenty-four hours, in twenty years. To be satisfied of the truth of this statement the public has only to come and see for themselves or ask some friend who has examined it. The object of this deep mining is to show the public that the rich lodes of ore go down and can be mined at a profit. Up to date machinery will be used in sinking the shafts. Compressed air will be used for drilling and hoisting the ore, and pumping water out of the shafts. The ore mined in this way will be milled along with the hard quartz mined by hydraulic method.

Persons being engaged in the mining business can give the public any progress of their work they desire through the columns of the Nugget free of charge as well as any new discoveries. It is a matter of news like any other industry. This paper is read by more people than any other published in the county and we are very much opposed to men coming here, making "big write ups," for as a general thing they know nothing about the business and make misstatements sometimes because they are often paid and must write something whether they understand it or not. They don't live here and are not dependent upon the people here for a support and don't care whether they are correct or not. It is different with us. We are here to stay and if we tell a lie they are sure to catch up with us which would injure us in the end. Another thing please give us the news while it is fresh for if you fail to do so people might disbelieve it. For instance take the discovery of the Findley chute which was said to be made more than three weeks ago and nothing said about it until last week in another paper although the Nugget proposes to give such information right at the time free of charge. People may ask why didn't they say something about it sooner and wonder why bad air drove them out as soon as they struck it.

Gen. Warner, of Marietta, O., and L. K. Donovan, of Columbus, O., were in the city this week for a short while. The object of their visit being to attend a meeting of the directors of the Crown Mountain Mining Co. which was held at the company's office on the 30th ult. We learn that the report of the president as to the machinery contracted for and the report of the general manager of the progress of the work was very satisfactory to the board. The dynamo and motors for generating and conducting electricity to the pump will soon be ready for delivery. The pump will also soon be ready. We are informed that the price of the stock has been advanced. The progress and additions made to the property as well as the enlargement of the plant will well warrant the advance. Indeed the stock at the advanced price taking everything into consideration is a safer investment than when the price was lower. The elements of doubt as to water power, if there has ever been any, has been removed. Rich veins never known to exist have been opened, notably, the Wallace on showing ore richer than was ever claimed for them. The development work discloses almost daily some new and unexpected value to the property. The first installment of stock has been almost been disposed of. The work on all parts of the property is progressing as fast as labor and money can do it. The management seems to be much elated, not only at the increased merits of the mines, but at the prospects for an early completion of the plant. While everything moves along quickly this company has over two hundred hands at work. The success of the company seems to be assured.

LETTERS OF DISMISSION.
Georgia, Lumpkin County.
A. Rudolph, of Hall county, Ga., as executor of the will of W. A. Barnside, late of said Lumpkin county deceased, and as testamentary guardian of Thomas E. Barnside, Mary E. Williams (formerly Mary E. Barnside) and James W. Barnside, all of said Georgia being now twenty-one years of age, having filed his petition for discharge from his said trust, this is to cite all persons concerned to show cause if any they can, on or before the first Monday in October 1900, why letters of dismission should not be granted to said Rudolph as prayed for. This 2nd day of July, 1900.
W. H. C. TATE, Ordinary.

Case of Burial Alive.

The discovery that Mrs. Needham wife of a farmer, near Roan, Ind., was buried alive twenty years ago has caused a sensation of horror in that neighborhood.

The young woman died supposedly when her first child was born in 1880. When the body was straightened for the grave, it is now recalled by some of the women who aided in that duty, doubt was expressed as to whether life was extinct. At their suggestion Mr. Needham sent for a physician, who, after several tests, declared that there was no signs of life and recommended that the funeral be proceeded with.

For several years after the body was buried in Soap Hill cemetery the neighbors discussed the mooted question.

Last week it was decided by Mr. and Mrs. W. M. Bryan, parents of Mrs. Needham, to remove the body to Odd Fellows' cemetery. When the casket was exhumed the persons present at the opening of the coffin were astounded to find the glass top broken, the left arm, which, with the right had been laid upon the breast at the time of the burial, lying beside the trunk, while the right was uplifted, with the hands clinched beneath the head, the hair evidently having been clutched violently in the agony of the moment. The body itself, which had been laid upon the back, was partially turned over, and the surroundings were indicative of a terrible struggle.

The theory is that Mrs. Needham was, when buried, in a state of suspended animation, and perhaps, understood all that was going on, but was powerless to help herself.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Opposed to County Primaries.

The White Primary Democratic circular recently issued by the members of the Primary organization, together with certain other statements from the same source, offers insinuations that call for a voice from the Independent candidate.

As you have doubtless observed the circular in question is not an argument in favor of democracy at all but a most earnest plea for a primary. It makes no difference what you believe, what you have always been or what you are now just so you cast your lot with the Primary Band, for the invitation to participate is to "all white voters of the county regardless of past affiliations." It does not take a Solomon to see that the wide extended call means something more than a desire to organize politics. Often times the real nature of an organization of this kind is kept concealed in order that its members may gain power enough to enable them to dictate the local governmental policy of the county.

The circular sets up a most distressing yell about negro supremacy in Lumpkin County and says "this condition called for the white primary." Why be alarmed so suddenly? There is not the remotest danger that the negro will ever hold the reins of power in Lumpkin county and even if there were a real danger the primary would be a poor remedy. No, this alarm is not skin deep. It is an empty pretence whopped up to arouse a spirit of opposition in hope that men would go blindly into the primary. The argument about "white man's country and white man's ticket" was doubtless manufactured for a vote catcher but its weakness has already been detected for a great many good citizens have already learned that a candidate may be white on all sides and still not be subject to the primary. Who is the white man in politics anyway? Is he not that upright moral man who, when he runs for an office, makes a fair and honorable race, who gives his opponent all the credit due him, who resorts to no unmanly means for the purpose of securing votes and who submits to the result of the election and whether elected or defeated is the same good citizen after the election that he was before? Couldn't a candidate do all these things without being subject to the primary?

Doubtless there are or will be candidates on the independent ticket whose political principles are as sound and as definite as the principles of any one of those who are so enthusiastic about the primary. Such candidates are simply opposed to county primaries and they have as much right to oppose them as the other man has to favor them. But why am I opposed to primaries for the purpose of selecting county officers? Because such primaries are useless, because they are the twin brother of ringism, because they restrict men's liberties by placing their votes beyond their own control and because where strong party lines are drawn the voters lose sight of the trustworthiness and ability which candidates should possess. In reference to the independent candidates the question is asked: "Are they afraid to submit their candidacy to the white men of Lumpkin county?" For my part I answer "No." Submit my candidacy to every legal voter of this county and if elected will be the officer of the whole people and if I am defeated the defeat will be just for it will be the verdict of the whole people. If

seems to be the other side that are afraid to submit their candidacy to the people. Notice the list of candidates who are announced subject to the primary. You will find that a large per cent. of them are men who have been defeated when put upon their own merits before the people. But they are determined to have an office and are now in the uniform of the primary hoping that it can pull them through.

Now good citizens, I warn you to beware of that primary for when you vote in that election you place your ballot beyond your own control. You simply donate your liberty to a set of men who may not have a particle of interest in you except to secure your vote. You don't know what changes may take place before the general election. Suppose there was a worthless incompetent fellow before the primary for a certain office and you should oppose him with all your might but by some unfair means he should secure the nomination. Then suppose after the primary was over your father or brother or some other good citizen should decide to make the race for the same office. Then you would be under obligation to vote against your father and for the worthless fellow because you voted in the primary. It is much more safe to stay away from the primary and keep your ballot in your own hand and then when the general election comes you can cast your ballot according to your own free will and the circumstances that surround you at that time. A. W. CALX.

Pension Report.

Washington, July 31.—The forthcoming report of the commissioner of pensions, H. Clay Evans, will show a grand total of 993,528 on the rolls on July 1. On July 1, 1899, there was 901,519 pensioners on the rolls. During the year 40,645 original pensions were granted and 4,699 names were restored to the rolls. To offset these 43,334 names were dropped from the rolls during the year, including 35,800 by reason of death, 99 by re-marrriages of pensioners, and 6,614 for other causes, leaving the total number on the roll at the first of this month 993,528.

This is an increase of 2,010 pensioners for the year. The number of claims of all kinds pending July 1, 1900, was 487,104, against 477,230 on July 1, 1899.

The report shows a total of 200,797 names dropped during the six years ending June 30, of which 103,105 were caused by deaths.

A Kansas City judge recently rendered a decision that will interest young men who take their girls out riding. A young man hired a team for this purpose telling the liveryman the fact, and in the course of the drive the team ran away and demolished the buggy. The owner sued the young man for damages, and the judge gave the verdict to the young man, saying that it was the duty of the liveryman, knowing that he was going to take his girl out riding, to give him a team that he could drive with one hand. Local liverymen will do well to bear the above in mind.

Sheriff Jackson, of White county, came over Saturday with orders from Judge Estes to remove Dorsey the alleged White county murderer who was in jail here, to Atlanta, where he will be confined in the tower. There seems to be some mystery about the change, as no one, not even Sheriff Jackson knows the reasons for making the move. Mr. Dorsey has been a most quiet orderly prisoner. He expressed a regret at being taken away from Sheriff Gastley who has been very kind to him.—Clarksville, Advertiser.

Secrets in Ever Life.

If the casket of memory, in which the average newspaper man carries the thousand and one secrets coming to his knowledge, could be opened and the weakness and follies of the world, as known to him, laid bare and exposed, nearly one-half of the people would go into exile, or call upon the mountains to fall on them and cover them from the public gaze. Strange as it may seem few persons indeed would be willing for their history from the cradle to be made public. Stranger still is the fact that newspaper men, without special efforts, learn more of these secrets than perhaps any other class of men on the earth. The editor is often blamed for what he publishes, but if those who blame him could only know what he declines to publish they would rise up and call him an angel of light, rather than an imp of darkness. We would not be understood as implying that there is a skeleton in every closet or scandal in every home, for such is not the case, but the backbitings, the bickerings, the white lying, the hollow shame and the base hypocrisies are what we mean. Men and women who meet and pose as friends, and yet carry knives up their sleeves to stab the characters of each other. Hypocrites who use the livery of heaven to serve the devil in. Shames whose exterior shines like a gilded ball, and whose moral character is as spotted as the leopard of the jungle. Whispers who go about spreading the seeds of scandal as the wind scatters the down of the thistle, and gossips whose sole aim is to destroy the happiness of the world. Newspaper men tell much but they do not tell it all, for to do so would cause social upheavals that would make society tremble.—Exchange.

Democratic Rallies.

Public speeches will be made and all candidates will be present at the following places at 11 o'clock on dates mentioned:
Davis' Aug. 10,
Gano Creek 13,
Dahlonega 14.

\$500 REWARD.

We will pay the above reward for any case of Liver Complaint, Dyspepsia, Sick Headache, Indigestion, Constipation or Colic, which we cannot cure with Liveria, the Up-to-Date Little Liver Pill when the directions are strictly complied with. They are purely Vegetables and never fail to give satisfaction. Boxes contain 100 pills, the boxes contain 40 pills, the boxes contain 15 pills. Beware of substitutions and imitations. Sent by mail. Stamps taken. NEVITA MEDICAL CO., Cor. Clinton and Jackson Streets, Chicago, Ill. For sale by C. H. Jones, Drugist, Dahlonega, Ga.

Questions for Women

Are you nervous?
Are you completely exhausted?
Do you suffer every month?
If you answer "yes" to any of these questions, you have the signs which Wine of Cardui cures. Do you appreciate what perfect health would be to you? After taking Wine of Cardui, thousands like you have realized it. Nervous strain, loss of sleep, cold or indigestion starts menstrual disorders that are not noticeable at first, but day by day steadily grow into troublesome complications. Wine of Cardui, used just before the menstrual period, will keep the female system in perfect condition. This medicine is taken quietly at home. There is nothing like it to help women enjoy good health. It costs only 51c to test this remedy, which is endorsed by 1,000,000 cured women.

Mrs. Lena T. Friesburg, East St. Louis, Ill., says: "I am physically a new woman, by reason of my use of Wine of Cardui and Theodore's Black Draught."

In cases requiring special directions, address, giving reference, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THE NUGGET.

DAHLONEGA, AUGUST 10, 1900.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Yellow fever has appeared in Florida.

It is reported that North Carolina went democratic last week by 60,000 majority.

For many years Dahlonega had to be "talked up." Now she speaks for herself.

Nearly all the counties in Georgia show an increase in valuation of property this year.

W. G. Dickson was slain near Wrightsville, Ga., the other night by his wife and a farm hand named Jerry Walden.

Be sure when you give anything for foreign missions that your debts are all paid at home, preachers not excepted.

The democratic primary for the senate, legislature and county officers take place in Lumpkin county next Wednesday, and from what we can gather a very tight vote will be polled.

The following gentlemen of Dahlonega, will meet on the 15th inst. at the following places and talk democracy: W. A. Charters, at Auraria; R. H. Baker, at Yaboo; B. P. Gaillard, Jr., at Crumby; W. S. Huff, at Shoal Creek and R. M. Bryson at Porter Springs.

Remember that not a lick will be struck on the Dahlonega and Gainesville railroad until the amount asked for is subscribed and work will not begin this season unless it is gotten up pretty soon. This is the language of Capt. Adams. And we might add that it may never be built if the present opportunity is not grasped. Delays are very dangerous.

The jail in Atlanta is continually full of prisoners placed there for making "moonshine" whiskey. The average is from seventy-five to one hundred all the time. If our laws would allow the people to use their fruits and farm products as they pleased, all this expense to the state would be done away with. This is nothing more nor less than depriving a man of his liberty and god-given privilege.—Wiregrass Blade.

Mr. Chas. F. Sheldon of Cleveland made Monday and Tuesday. He was paralyzed at the Longstreet mine near Cleveland some months ago and it was feared for a time that he could not recover. His friends are glad to know that he is able to be out again and that he has almost entirely regained the use of himself. With the exception of a slight defect in his speech and only a partial use of his right arm he is all right again.—Georgia Crack or.

It was reported here last week that Will Evans, who murdered Merck in Gainesville, some time ago was tried but the report is not correct. The case was continued because Col. Howard Thompson had the dysentery which will be very expensive to the county. Evans has three lawyers and if they hereafter happen to take the dysentery one at a time he will not be tried for many months. Such is this is what encourages lynch law. However an adjourned term will be held on the second week in November to try the case if none of the rest get sick.

G. W. Blucher, an aged Iowa farmer, who went to Colorado five years ago for his health, tells of a remarkable cure for the bite of poisonous snakes. "I have lived all my life in a country where rattlesnakes were thick," said Mr. Blucher, and I have seen a great many people bitten but I have never known a case proving fatal when this remedy was used. All that is necessary is to procure the yolk of an egg and mix it with enough salt to make a good thick poultice. Put the poultice on the bite and bandage tightly. Watch the solution and when it is full of poison it will change color. It should then be removed."

Gainesville is so selfish towards Dahlonega that we don't care if the railroad comes from some other point.

The jury revisors of this county didn't get to commence their work until 8:30 o'clock Monday on account of absent ones, not being enough up to that time to legally transact the business.

We have been engaged a portion of this week in printing tickets to be used by the democrats at their primary on next Wednesday, being the first primary that was ever held for county officers in Lumpkin since we can remember.

By reference elsewhere you will see the name of C. W. Dotson who is a candidate for tax collector at the ensuing election in October. Charlie is well known to most of you—is a clever man and it is useless for us to make any comment.

The Hand mill runs on Sunday mornings until 4 o'clock, and on Saturday night last at 12 o'clock two negroes who assisted in feeding the crusher got their buckets and said, "massa, we can't work on Sunday" and started off. They had been reading the commandments and feared the Lord worse than they did the Consolidated Co. We are no church member but can see no use of a wealthy company having to do such work as this here on Sunday. Of course there are some work about mines that has to continue but not so with a stamp mill.

We understand that it is reported down at Gainesville that there are from thirty to forty cases of typhoid fever in Dahlonega, but the report, coming as it does from a place that is always working against Dahlonega, is no surprise to our citizens. We have consulted the physicians who tell us that the health of the town is a long ways better than it was last summer, notwithstanding the increase of several hundred population since that time there is are not exceeding eight cases in the entire corporate limits and but one death has occurred from the fever here this summer.

We are being frequently asked and written to "what about the railroad? Will it be built or not?" There are two companies proposing to build the line which causes things to look very favorable. The first proposition comes from Capt. Adams who is at the head of a company proposing to build it if Dahlonega will subscribe \$20,000 besides asking for rights of ways owned and controlled by Col. W. P. Price, who undertook to build a road from Gainesville to Dahlonega several years ago and failed after grading it more than half way and building an expensive bridge across the Chattahoochee river. Col. Price has tendered all the rights and privileges he owns in the old proposed railroad and subscribed \$500 besides. But the full amount of \$20,000 has not been subscribed by our citizens and we don't believe it will—not half of the amount has been gotten up yet and we heard one large subscriber say the other day that he felt very much like withdrawing his subscription because he gave the amount thinking that others who have only given a few dollars would be as liberal and the amount would soon be gotten up. But not so. Very slow progress is being made and things seem to be on a slow go and we believe if Capt. Adams' men do not commence operation until the \$20,000 is subscribed that it will be a long time before they build the railroad. Now this is the way we look at the matter. In the beginning some of their employers said that the road would be built whether Dahlonega subscribed one cent or not, and this is a drawback towards getting up the amount. Besides this another proposition by different parties has been made to build the road from Gainesville to Dahlonega if Col. Price will give them the rights of ways of the old line, without any other subscriptions whatever. So this is the way the matter stands.

Mrs. Agness Alman is here on a visit to relatives.

Mr. Dock Robinson was wedded last Sunday to Miss Maud Head, a daughter of Mr. Wilson Head.

It seems that no one wishes to run before the democratic primary of Lumpkin county for coroner.

J. N. Satterfield informs us that he thinks of making the race for tax receiver on the independent ticket.

About forty of our citizens went down to the Hand last Tuesday night and viewed the mines by moonlight.

For the benefit of our county readers we will begin soon the publication of the newly revised jury list of Lumpkin county.

After our first side was gone to press, containing his announcement, J. A. Ferguson came in and informed us that he had decided to withdraw from the tax collectors race.

The office seekers in Lumpkin have greatly increased within the past two weeks and when the democratic primary is over you will see independents coming out in a much stronger force.

If you intend to run for an office come along, drop three dollars into the slot of the NUGGETS box which will cause you to get your proper political weight in October when the weather gets cooler.

Close prices on shoes continues at Copelands. Don't miss the opportunity. Also the freshest and best crackers, gingersnaps, baking chocolates, extracts and confectioneries at the same place. Call and see.

Two different parties from the North have been here this week looking over the mines. Mr. McCabe is accompanied by some gentlemen inspecting Crown Mountain, and Mr. Breymann has several other looking at the Consolidated operations.

Parties from Ducktown inform us that three men were killed there recently by the accidental discharge of a blast on the railroad, throwing them high into the air. One being torn up so that they gathered what pieces they could find and buried them in a sheet.

Those wanting a railroad to Dahlonega should begin to get a move on them judging from what Capt. Adams said to Bro. Craig, of the Eagle, while in Gainesville a few days ago, a portion of his conversation being pointed as follows: We have made you a proposition and we are only waiting on you—and Dahlonega. There is no definite time fixed, but you may say definitely that if it is not got up soon there will be no hope of a railroad this season, as the fine weather and the long days are passing by, and when bad weather sets in and the days grow short nothing like so much can be accomplished in a day's time as could be accomplished now. Now is the time to get up the money, or complete the subscription for it, and now is the time to begin to build the road, if it is to be completed this season. My plan is to strike always while the iron is red, for no man can tell what a day will bring fourth. Yes, sir, I would urge that the subscriptions be pushed until completed."

DENTISTRY

GOOD WORK. PRICES LOW.

Give me a trial and be convinced is the proper way to do business.

J. G. GROVE,
Tate Building, Dahlonega, Ga.

It is reported that the Chinese killed 1,200 Allies during a battle last Sunday.

It is said that the District meeting at Blue Ridge last week was largely attended and very interesting. The next session convenes at Clarksville.

Choice B. Randall, a Cobb county boy who graduated at the N. G. A. College at Dahlonega, was the other day nominated for congress from the 5th Congressional District of Texas. We are always glad to note the progress being made up the ladder of life by any of the old Dahlonega students.

The amendment of the new pension law which may increase the appropriation by at least \$200,000 in Georgia will be left to the voters to decide at the October election, which applies to widows, being those of confederate soldiers who by reason of age and poverty, are unable to provide a living for themselves. Under the existing pension law those widows alone whose husbands were disabled or permanently injured in the service of the south can receive pensions from the state, which if the amendment is carried a great number of names will be added.

It will be seen elsewhere that F. R. Lowery, colored, comes to the front this week asking the people to elect him to the office of sheriff. Frank has been yotling with the democrats a long time and now since they have decided to leave those of his race out quite likely he thinks with so many candidates in the field for that office that he will stand a chance to come in with the united support of his race, maybe thinking that some of the white people will help him because he has assisted them but he will be deceived if he thinks that. They will drop the golden rule when it comes to his case.

Nursing Mothers

dread hot weather. They know how it weakens and how this affects the baby. All such mothers need Scott's Emulsion. It gives them strength and makes the baby's food richer and more abundant.

50c and \$1. All druggists.

Georgia, Lumpkin county: Sarah S. Adams, having made application for a twelve months support out of the estate of James M. Adams, and appraisers duly appointed, to set apart the same having filed their return, all persons concerned are hereby required to show cause before the Court of Ordinary of said county on the first Monday in September, 1900, why said application should not be granted. This the 31st day of October w. H. C. TATE, Ordinary.

To the Voters of Lumpkin County: I respectfully announce myself as a candidate for sheriff and ask the support of the voters at the general election.

THE NUGGET.

DAHLONEGA, AUGUST 10, 1900.

The Dahlonega camp meeting is in session. So far but few have attended.

G. C. Wallace has purchased a town lot near the Graded School house with the expectation of building a residence soon.

Homer Bishop, of Dawsonville, is now clerking for J. M. Brookshor. His experience in this line enables him to know how to wait on customers.

W. H. Courtney told us the other day that he had a fine calf at his house and if any one would bring him a better one that he would give them \$25.

The candidates who are nominated that have been running their announcements in the Nugget can have them continued until the election for 50 cents—cash up and no grumbling.

We are requested to state that Oak Grove Sunday School will picnic on the 4th Sunday in this month. Everybody invited except candidates. All are requested to carry well filled baskets.

The family of Rev. W. A. Parks are on a visit to Gillsville. Mr. Parks will leave the 15th. Who will occupy his place in the church next year we do not know as the selection has not been made yet.

Chas. M. Kennimer has bought out his father's interest in a store at Cleveland some days ago. We need a direct mail line from Dahlonega to Cleveland so as to enable us to keep our readers posted about what is going on in that place.

Rev. Mr. Bright, of Murphy, N. C., spent several days in Dahlonega since our last issue and delivered two most excellent sermons Sunday and Sunday night at the Baptist church, listened to both times by large and attentive congregations.

A couple of blockaders came across the Blue Ridge last Saturday night and supplied all who wished to spend Sunday in drinking in the neighborhood of Oak Grove church. Some of them getting so full that they traveled about over the public highways and woods and yelled like panthers.

A heavy piece of machinery appeared on the square last Tuesday drawn on a wagon by ten mules, somewhat resembling some of the Chinese old guns, as pictured off by several of our daily exchanges, causing a lot of curious spectators to gather around and ask questions—we being among the number. It proved to be an improved air compressor which is to be used in running the drills while cutting a tunnel through the Blue Ridge by the Consolidated Co., so as to convey the water of Coopers creek through the mountain to their mines on that side, which work will begin at once, giving employment to many hands in that section until the work is completed.

An old afflicted lady, who lived in a little 7x9 hut in Mill Creek district was tried by a jury in Dahlonega last Tuesday on a warrant sworn out by Newt Motes charging her with larceny, and after a hearing from the old woman and the examination of a couple of witnesses the jury decided that the papers home was a more suitable place for her than the lunatic asylum and so recommended it and Judge Tate sent her out to the farm immediately after the trial. The old woman owns about five acres of land in a desolated place out in the country and it was sad to hear her tell how she had toiled, even splitting rails, to enable her to make a support until old age and affliction crept upon her and she could do no more, having no means of support except what kind neighbors gave her. When they failed to help her she had to suffer with hunger. How often money is sent off to strangers when it is badly needed right here at home.

A new line of shoes, calicos, dress shirts, boys and gents collars, at J. E. Tate's.

Hill's Villa and several private residences in Dahlonega are letting their lights shine by electricity.

M. J. Williams and G. McGuire represented the Dahlonega Methodist church at the District meeting held at Blue Ridge last week.

Last Tuesday was sale day but only one lot of land was sold by the sheriff, which lay next to the foot of the Blue Ridge belonging to Bud Gaddis, bringing only \$19.75.

After we had printed our first side, containing most of the announcements, John Fields came in and notified us that he would withdraw from the race for tax collector.

W. C. Croy, of Dawsonville, was up to Dahlonega last week who informed us that he was coming here at an early day to cast his lot with the people of Dahlonega and go into the jewelry business.

When a person sends a communication to the Nugget for publication they should bolt it down and not write such a long one. Don't imagine you are young and single and writing to your sweetheart. Be pointed on each and every subject then your communication will be read with more interest.

Last Monday was the regular monthly meeting of the council but little business was transacted. Prof. J. W. Boyd was appointed to fill the vacancy on the board of health caused by R. H. Baker resigning, and a committee was appointed to confer with a committee of the Consolidated Co. so as to come to some understanding about lighting up the city.

Don't forget about the bank which Mr. Synold of Columbus, O., proposes to establish in Dahlonega provided it is the wish of her citizens. The gentleman will be here again shortly to see if you want it and how bad. Whether you are just talking or are willing to make an investment in this much needed enterprise here. If you desire it now is the best opportunity.

Last Friday just as the laborers down at the Hand had finished up their days work a horrible accident occurred, resulting in the death of Charlie Hulsey, a young man of about 20 summers, and the painful injury of Garnet Harris. As soon as the whistle commencing blowing for quitting time they picked up their dinner buckets and started off up the railroad towards home, and while on the track their attention was attracted to something at the mill, when a heavy car in charge of a son of Lum Hamilton col. loaded with ore ran down on them before they had an opportunity of escaping, the mill and whistle making so much much noise that they could not hear the alarm and the grade being so heavy that it was impossible for the negro to stop the heavy car. Hulsey's right leg was almost cut entirely off between the knee and foot while his left thigh was split to the bone, besides other serious wounds. Fortunately the car didn't run over Harris. He was shoved off into the ore bin and painfully but not seriously hurt. Both were brought to the city as soon as hacks could be procured. Harris was sent out into the country to some of his relatives and Hulsey was placed in the Hall House and put under the treatment of physicians. The following day was fixed to amputate his leg by Drs. Jones, Welchel and Head, but for some reason they didn't take the limb off, only dressed his wounds. Shortly afterwards the sufferer woke up but only lived a little while and expired about one o'clock. No blame is attached to any one. Harris is a married man and resides in Hall county and Hulsey was an orphan boy who made his home at one of his brothers over on the Chestatee river in this county. The funeral expenses and medical treatment will be footed by the Consolidated Co.

W. C. Moore is off on a week or ten days visit to his former home at Rome, Ga.

Mrs. Ann Collier, of Atlanta, is on a visit to her sister in Dahlonega, Mrs. B. R. Meaders.

Judge Brittain has had a painter at work on his residence which makes it have quite a neat appearance.

There is so many people visiting Dahlonega that it is impossible for us to keep up with all the persons.

Mrs. M. C. Reeder, of Hartwell, Ga., oldest sister of our townsman R. H. Webb, is spending a few days in the city.

W. B. Woodward, the junior editor of the Signal, has recovered from his late spell of sickness who is at his place of business again grinding out news for the public.

Times are more prosperous in Dahlonega than we ever saw before and as we have said before that there is no one idle desiring work. Even many little boys find employment and have what money they want to spend.

A few days ago Wilson Blackburn, a son of Rev. Joseph Blackburn, of Dahlonega, died at Ducktown, Tenn., after a short illness of fever. The oldest child of Wilson Blackburn also died. It is said that there are over forty cases of fever in that neighborhood.

It seems that the Dawson county liquor is meaner and stronger than that made in Lumpkin. A fellow from that county was telling us the other day about a bottle full exploding shortly after getting it and putting it on the mantle. It is a good thing for the purchaser that it exploded before using it.

Among the numerous visitors here last week were Mr. and Mrs. C. L. Collins, of St. Augustine, Fla.; Mrs. Leonard Carter and son, of Odum, Ga.; Mrs. Kelley, and Mrs. Priehards, of Tennessee, Ga. They all stopped at the Dahlonega Hotel, each going away perfectly delighted with our beautiful mountain city.

J. W. Meeks, of Blairsville, and W. H. Courtney, of Pleasant Retreat, dropped in to see us while in the city last week. Mr. Courtney is still mining on the same property he has been for years—placer mining—using a lift and in doing so lifts the precious metal out in large quantities. Mr. Meeks is engaged in doing development work on some of his property in Union county.

Marshal Harrison has some ten to fifteen hands engaged on the roads and streets all the time. They are given orders on the treasurer and can get the money for their labor whenever there is any cash on hand, and when none the orders are taken anywhere here and are received with as much anxiety as if they were cash. This is the way to do business.

A saw mill in the edge of White county has made an agreement to understand to furnish the Crown Mountain Mining Co. at Dahlonega with from three to eight thousand feet of lumber every day until a very large order is filled. The mining operations here are not only a big benefit to the people of Lumpkin but to those for many miles around in all adjoining counties.

Allen McCarter, colored, after making a trip to Dahlonega from Atlanta via Porter Springs, landed in the calabash soon after he arrived here Saturday morning. Before leaving Atlanta he made a contract to go up to Porter and work for Col. Farrow and his expenses were paid to that place. Soon after reaching the springs he became dissatisfied and lit out for Dahlonega and it wasn't long until Marshal Harrison had him in the coop as directed by Col. Farrow, who, after his arrival here agreed to compromise the case by the negro promising that he would go back and work besides paying all expenses.

The letter written us from Alabama will appear next week.

A gentleman who knows says that Dahlonega is a better market than Gainesville.

Jeweler McGuire is building a shop on the Masonic hall lot next to Captain Woodward's.

Calvin Jackson tells us that he expects to join the band of tax collector aspirants in the near future and will continue the march until October.

Wm. O'Shields, who came here some time ago from Dawson county to work in the gold mines, was bound over the other day by Com. Baker for handling blockade liquor.

S. S. Smith, residing in the eastern portion of the county, has our thanks as well as those of two other gentlemen for a jug of that excellent raspberry and grape cider which he makes, sent us last week.

A gentleman remarked the other day that he never saw such a town as Dahlonega before. Not a single house to rent, none to sell, no idle hands that will work to do little odd jobs and no cooks to be hired, either white or black.

Acy Crenshaw, of New Bridge, had had luck one day last week while on his way to Dahlonega with a load of freight. While coming down Crooked Creek one of his wagon wheels broke down and he went off to get another to use so he could reach town. On his return he found one of his mules gone together with several pounds of cheese.

We understand that the Nugget addressed to A. L. Woody, Quebec, Ga., has occasionally been opened and read at that office and then used for wrapping paper. Mr. Woody pays us for the paper and wants it and we pay the government for it to be delivered to him whenever it is called for and the next occurrence of the kind we hear of will make a report to the department.

Only a short time ago a new postoffice was established out near A. J. Edges in Crumby's district with one of the Mr. Goldwells as postmaster. Right recently the postmaster has decided to move a few miles farther away and wants to carry the office with him, having sent in a petition to that effect. A counter petition has also been made, and doubtless the office will remain at its present location as we learn the counter petition is the largest.

Not many days ago a certain fellow in Dahlonega got into a very embarrassing shape by stealing a jug of liquor belonging to a blockader which was hid out in the woods near the city. After taking three or four good "soakers" he found to his regret that it contained potash which some of the manufacturers use so as to make it go farther with the addition of water. It was not long until the stuff got into his work and the man finding Meaders' stable open went in so he could run his finger down his throat and relieve his stomach to some extent. While going through this treatment Bob Meaders came up and locked the stable door, little thinking that there was a sick man within. It was not long until the liquid ceased to flow from the sick man's stomach and he realized his condition. What would he do? The door was fastened and the proprietor gone. Besides this he didn't want it known that he drank liquor for it might injure him in the church as well as in society. After making a general survey in every nook and corner he discovered a small hole down next to the ground, and it was not long before he crawled out with potash and dirt all over his face and hands somewhat resembling an alligator coming out of a mud hole. He was completely disgusted and not known to but few of the people and will be all right in the church matters if not recognized by the Lord.

Mining Notes.

Judging from reports received from White county the mining industry is looking up considerably. We are glad to hear of it as we are no ways selfish for we want to see prosperity spread throughout the land except China.

Everything is still moving along as usual at the Crown Mountain and it will not be many more months until the machinery will be moving at this celebrated mine to the pleasure of all our citizens who are anxious to see them begin crushing the very rich ore they have struck at various places on the property. One reason our citizens feel such an interest in this mine is because a number of them have taken stock in it.

On board the northbound train last Sunday we fell in conversation with Mr. W. C. Padget, and found him enthusiastic over the prospects he had recently discovered in the way of gold mines. He showed us some ore in which the precious metal fairly sparkled, gold, galena and quartz, all in combination. He had other nuggets in which iron and gold were bleached. He informed us that he had a number of rich prospects located, and will probably have something interesting in the way of mining news later on.—Blue Ridge World.

A five pennyweight nugget of gold was picked up the other day by Will Hulsey on the lower Calhoun property owned by Howell & Miller, of Auraria. This discovery caused other miners down that way to look about for one also and Bill Bryson was successful but his was not as heavy as Mr. Hulsey's, as it only weighed half a pennyweight and was found on the Packard property on the river skirt proving that the different properties in that section are very rich—only needing more development work to convince strangers of the fact, as the citizens here are already aware of it, and we believe that the day is not far distant when the lower part of the county will be supplied with modern gold saving machinery like that at the hand. This mill, since its operation has clearly demonstrated that much of the gold under the old method of mining has been washed away and lost. There is no use of this being done any longer when machinery can now be procured that will save 95 per cent of the gold like that employed by the Consolidated Co.

While J. W. Meeks was over from Union county last week he gave us some interesting mining information which will no doubt convince the doubting ones that all the mountain counties in upper Georgia contain gold in paying quantities veins growing richer as they are followed. Mr. Meeks used to hold the office of ordinary of Union county and is perfectly reliable in every sense of the word. He informed us that he owns and controls several thousand acres of lands in that county and has been engaged in development work four years and that the veins grow larger and richer as they are followed. Has opened up a large number of good veins averaging in size from eight inches to seven feet, being worth from \$4 to \$9 per ton, most of it being surface work. One vein when first struck near the surface, only three inches large, has been followed deeper than any of the rest and at a depth of 26 feet is three feet thick. Recently he has struck a gold bearing vein having a rock on top of it about five feet square also containing gold which will have to be blasted off before the size of the vein is ascertained. All that is needed over there now to make money is an up to date stamp mill.

Some of you may think strange of us referring to the Hand mine so often when we hold no individual interest. When this enterprise was begun it was claimed by some to be nothing more than a speculating scheme, causing all eyes to be cast in that direction watching the movements of the Consolidated Co., who own it. This process of

mining had never been introduced in this section and many had fears of its success. Well did we know that if the enterprise was a failure with all the latest improved machinery and big outlay of money that it would give this country such a "black eye" in the way of mining that it would take Lumpkin county many years if ever to recover from the backslide. But we are pleased to state that the mill and other machinery are perfect and the enterprise a success and the returns more than justify the expectations of every stockholder. This is enough to cause us all to rejoice and love to talk about it, for the enterprise has done more to benefit this section than any other ever started in the county before. It has caused other like enterprises to begin work and increased the population of Dahlonega by the hundreds and built up her trade thousands of dollars monthly. Just think for a moment what the Hand mill is doing and how much greater the increase of gold is as they go down on the veins. Week before last as we have before stated, 390 ounces of gold were cleaned up over a weeks run, being an increase of 240 ounces on the previous weeks run. And now they are able to convey the ore to the mill much faster and cheaper than heretofore having gotten their first electric car for ore in running order last Friday, being started off by Peter Acry, an electrician who has been here at work for the Co., for several months. Several were there to take a ride, being the first one by electricity ever taking place in Lumpkin county, which was enjoyed very much by the participants. A tram way has been surveyed from the Barlow Mine, also belonging to the Consolidated Co., to the Hand, for the purpose of conveying ore from that mine to the Hand mill.

A recent issue of the Atlanta Journal has this to say about mining in Georgia:

"It would not be surprising if the output of gold in Georgia within the next ten years should amount to several millions of dollars annually. The reports which are being received from the gold bearing sections in Lumpkin and White counties are of the most encouraging character. In our dispatches yesterday from Washington, White county, there was a statement that there had been found a gold field in Lincoln county, and that one man had been offered \$200,000 for a tract of forty acres by New York parties. Lincoln and Lumpkin counties are wide apart, indicating that the gold-bearing section of the state is extensive.

A large amount of money has been placed in gold mining in the Dahlonega section. And the returns, it is said, more than justify expectation. It is reported that the Consolidated Gold Mining Company, which is capitalized at \$5,000,000, but which has invested, so it is claimed, only about \$6,000, will make this year fully \$1,000,000. There are other companies which are doing so well the their stockholders are more than satisfied.

Of course, full reliance is not to be placed on newspapers reports to what the mines are doing, because the newspapers have to depend largely on what they can pick up. Naturally the companies which are being operated are averse to making known the details of their business. If they are making money and are not seeking to dispose of stock they will maintain secrecy respecting the gold prospects. Doubtless they have their prospectors out all time and are keeping discoveries to themselves. If there is gold bearing land to be had they want it. The less said about the output of the mines the better their chances will be for getting gold-bearing land at a reasonable price.

It is said that some of the ore yields at the rate of \$19.50 per ton. That is a very large yield. Much of the ore that is worked in Colorado does not yield over \$3 per ton. If the ore in Lumpkin and White counties is as abundant and as rich as it is reported to be, Georgia will soon be classed as one of the big gold-producing states."

Mica Mine Sold.
S. S. Whitmore and W. S. Whitmore sold a few days ago the noted Kell mica mine to a company from Massachusetts. The company is expected any day. This property is said to be the finest of its kind in the south. At one time a solid block weighing hundreds of pounds was taken from this mine and was sold for many hundred dollars.
Clayton Tribune.

A Mother Tells How She Saved Her Little Daughter's Life.
I am the mother of eight children and have had a great deal of experience with morchises. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines ever had in the house. It saved my little daughter's life. I am anxious for ever mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. BURDICK, Liberty, R. I. For sale by F. W. Hall Mide Co.

There is another Noble case down in Tennille, Ga. Mrs. George Dickson, and her paramour, Walden, a farm hand, 20-years old, at night, murdered with an axe, Mr. George Dickson as he slept in his bed. The woman is a mother of three living children.—Ex.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by F. W. Hall Mide Co.

A Memphis (Tenn.) court recently granted a divorce to Pauline Krumpner from Joseph Krumpner. The terms of the decree are most peculiar. The home effects are granted to the wife, but one room of the house is left to the husband. The furnishings of this room are to be removed by the wife, and the husband, after having secured other furnishings, will remain in the same home with the spouse from whom he has been divorced, but having no communication with her. The custody of a child also goes to Mrs. Krumpner.

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures, have made it a great favorite with the people everywhere. For sale by F. W. Hall Mide Co.

The prospects are said to be good for Texas to harvest this year the largest crop of pecans in her history. The trees are reported literally loaded with nuts. The pecan industry is assuming considerable proportions in Mississippi, also, and in that state the outlook is said to be excellent.—Savannah News.

A Pale Face
Is a prominent symptom of vitiated blood. Treated with Chamberlain's Blood Purifier, the cure is complete. Its nature's way of warms your constitution.
Johnston's Sarsaparilla
never fails to rectify all disorders of the blood, either of severe, or long standing or recent origin. It is a year's record guarantees its efficacy. Sold everywhere. Price 25 cents per quart bottle. Prepared only by **MICHAEL DEBOS COMPANY,** Detroit, Mich.
For sale by The Frank W. Hall Mide Co., Dahlonega, Ga.

Cure Cold in Head.
Kermitt's Chocolate Laxative Glycerin, easy to take and quick to cure sin head and sore throat.

ANNOUNCEMENTS.

FOR THE SENATE. TO THE VOTERS.
I take this method of announcing myself as a candidate for the senate subject to the democratic primary on the 15th of August. Should I become the choice of the democratic party and citizens as their standard bearer, and if elected in October I shall, as I have done, when I enjoyed your confidence as senator, will watch all the interests of the state and the district shall have my best efforts to promote the resources educational and mineral. Trusting to share your confidence in bestowing this high trust on me, and will promise if elected in October next that my friends and supporters shall have no cause to regret it.
Yours Respectfully,
W. H. McAFEE.

FOR THE LEGISLATURE.
I respectfully announce myself as a candidate for the legislature subject to the democratic primary in August, and most earnestly solicit your support, promising if elected to serve you to the best of my ability.
Respectfully,
G. D. BRUCE.

FOR TREASURER.
We are authorized to announce the name of J. B. Brown for county treasurer subject to the democratic primary which convenes 15th of August.
I respectfully announce myself a candidate for county treasurer of Lumpkin county subject to the democratic primary to be held August 15th next.
B. C. BRYAN.

FOR CLERK.
I respectfully announce my name for clerk of the Superior Court of Lumpkin county subject to the democratic primary promising you if elected to discharge the duties of the office to the best of my ability.
Thanking you for past favor, I am,
Yours Respectfully,
JOHN L. MOORE.

FOR TAX COLLECTOR.
I most respectfully announce myself as a candidate for tax collector of Lumpkin county subject to the democratic primary to be held in August the 15th next.
E. J. WALDEN.

FOR SHERIFF.
I respectfully announce myself as a candidate for sheriff of Lumpkin county, and I solicit the support of the voters of said county at the general election, to be held on the first Wednesday in October next.
Respectfully,
D. S. PREWITT.

FOR ORDINARY.
I respectfully announce myself as a candidate for Ordinary, subject to the Democratic primary to be held Aug. 15th, next.
JOHN HUFF.

FOR THE SENATE.
I respectfully announce myself as a candidate for the office of ordinary for Lumpkin county, and ask the support of the voters of said county at the general election to be held on the first Wednesday in October next.
June 8, 1900. G. G. EVANS.

Feeling thankful to my friends for their support in the past I now announce myself as a candidate for re-election to the office of ordinary and solicited a continuance of their support in the election which comes off on the first Wednesday in October. I desire the approval of my administration at the ballot box.
W. H. C. TATE.

FOR RECEIVER.
I respectfully announce myself as a candidate for re-election to the office of tax receiver subject to the democratic primary on the 15th of August. Thanking the people for past favors, I am,
Respectfully Yours
C. W. STARGEL.

THE Crown Mountain Gold Mining & Milling Co.

A. J. WARNER, President,
J. H. MOORE, Vice-President,
J. F. MOORE, Sec. & Treas.

Capitalized at \$2,000,000. The Par Value of Shares \$100 Each.

Main Office: Dahlonega, Ga.

The Crown Mountain properties are situated in the very heart of the Georgia gold belt and is in the radiating center of all the leading gold veins of the Dahlonega district. They embrace what is believed to be the mother lode of the Appalachian Range.

The extensive and rich ore bodies in sight upon these properties assure long continued mining operations and the indisputable guarantee of the permanent and increasing value of the stock of "The Crown Mountain Mining Co." The projectors of this company were the first to revive the mining interests in this district in 1886. After three years of careful and exhaustive examination of all the mines of the district of reputation as gold producers, and they had the choice of all, they selected the Crown Mountain combination as the ideal gold mine of the district, which would yield or produce the most gold with the least expense. This opinion is shown by all the mining engineers, mining experts, miners and citizens of any standing in the district who are familiar with the properties. As an evidence of this we here state that more of the citizens of the town of Dahlonega and vicinity have taken stock in this company than have in all the other companies combined that have ever been organized in this district.

The company is to be managed by practical business men—who have given much of their time to mining and mining operations, and always with unvarying success.

The present directory is for the most part composed of men who have had much experience in the management of mines and mining enterprises, and under its efficient and economical management, and by reason of a visible gold supply that is practically inexhaustible, an investment in the stock of this company is undoubtedly safe.

The capitalization of this company is not commensurate with the visible productiveness of the properties and is meagre compared with the capitalization of other justly celebrated mines in the district, but the management believe it will be able to make the stock worth above par.

THIS WAY!

LETTERS OF DISMISSION.

Georgia, Lumpkin County.
A. Burdolph, of Hall county, Ga., as executor of the will of W. A. Burnside, late of said Lumpkin county deceased, and as testamentary guardian of Thomas E. Burnside, Mary E. Williams (formerly Mary E. Burnside) and James W. Burnside, all of said legacies being now twenty-one years of age, having filed his petition for discharge from his said trust, this is to cite all persons concerned to show cause if any they can, on or before the first Monday in October 1900, why letters of dismission should not be granted to said Burdolph as prayed for. This 2nd day of July, 1900.
W. H. C. TATE, Ordinary.

Girl Babies.

An Omaha woman bought for \$10 a guarantee from the spirit world that her next child would be a boy. When the child arrived it proved to be a girl. Instead of congratulating herself on the superior good sense and generosity of the spirits the woman had the intermediary in the transaction thrown into jail.

There are many woman who have this prejudice against girl babies, and an amazing prejudice it is, whether the matter be looked at from the sentimental or the practical standpoint.

After the first few years of helplessness and drooling infancy a boy is as a rule of no use to his mother, no companion for her and a source of increasing anxiety. Just as he attains to years of discretion he marries and therefrom belongs to his wife's family. The girl on the other hand is a pleasure to her mother in infancy, a companion in girlhood and a comfort and support in old age.

A woman who has a boy baby makes an investment for the benefit of some other woman's old age. A woman who has a girl baby makes an investment for herself. For when the daughter marries, the mother has secured a home and a bread-winner.

The more girl babies a woman has the larger is her insurance against loneliness and poverty in the evening of life.—New York World.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Hall's Family Pills are the best.

The merchants demands cash, the laborer demands cash, and cash is the basis of all transactions. But still there are people who think the editor doesn't need any cash at all. They seem to have an idea that he publishes a paper for fun, works for nothing and boards himself.

Crown Mountain Canal.

The picture above, taken from a photograph will give the reader some idea of the immense amount of work done and being done at the Seabolt Shoals, the source of the power of the Crown Mountain Company. This company has so far advanced with its plant that it can now be plainly seen that the work will be completed before the machinery including dynamos, motors, pump and stamp mill will be ready for delivery.

At the meeting of directors recently present General Warner and general manager Frank Moore went into every detail connected with the business management of the plant and then visited every part of the property. They first visited the water power, the Seabolt Shoals to see that every specification connected with the canal was complied with. They found everything perfectly satisfactory. These gentlemen are never satisfied with information from others but make it a point to closely examine things in person. And by the way Gen. Warner gets over more ground and sees more, makes more correct figures than any one of his or any other age that has become interested in this section. He enjoys forcing younger men to hunt the shade.

Frank Moore can hold his own with the best of them. He is always thorough and never slights anything. These men are determined as far as human foresight can do it, to guard against the mistakes that are so often wreck enterprises of real merits. We are reliably informed that already a considerable number of shares of the stock have been placed at the advanced prices. To say that every one connected with the enterprise is well pleased will be putting it mildly. They are enthused with an idea of an early completion of the plant and making the stockholders happy with good dividends.

Our own people who have invested in the stock of this company express themselves as being perfectly satisfied with what has been done and look with perfect confidence to good returns from their investment. The fact that the natives here have invested in this enterprise is to say the least very persuasive that it has all the merits claimed for it.

CROWN MOUNTAIN CANAL.

Our Alabama Letter.

COAL CITY, ALA., Aug. 3.
ED. NUGGET:—

As I want a weekly visitor to tell me what is going on in Lumpkin county I send you one dollar for the Nugget. Nearly all my correspondents instead of telling me what is going on there want to know what is going on here, enquiring what a man can make. I will answer all of them at once through your paper if you will allow it. Nearly everything is going on in Alabama that is anywhere else with coal digging and iron making added. As I know but little about anything but coal mining here I will compare this article to that industry.

Coal digging is piece work, and the one that does the most work gets the most money. An experienced miner will make big wages, where an unexperienced one would make a big failure. The tippie men, chainers, drivers, track men, pumpers, carpenters, blacksmiths, firemen, engineers and some others are called company men and are paid a stated salary per day, which ranges from \$1.25 to \$2.25.

Everything depends on the miners, of course, he gets the biggest wages. Yet as much depends on the place as on the man. Every miner has a "Strangers Home." That is where the miner can make a little over expenses, which is usually the kind of a place the new comer can get. If he proves himself to be a good miner and gets on the soft side of the pet boss he will soon find himself in a good place. None but an experienced coal digger can get a place. The "snakehunter" (greener) frequently gets to work with a miner and thus learns the trade. The law of Alabama is so strict that it forbids an unexperienced man from entering the mines except under the guidance of an experienced miner. This is but right. The knowledge of the working and condition of a mine is needed to keep out of the way of the top, gas, explosions and many other miners danger.

The miner has to furnish his tools and powder. An outfit for a beginner will consist of the following articles: One breast auger, \$1.50; 2 needles, 60 cents each; 2 blasting barrels, 50 cents each; 1 scraper, 40 cents; 1 tamping bar, \$1.00; 2 picks and handles, 75 cents each; 1 ax and handle, 85 cents; 2 wedges, 25 cents; 1 can of powder,

\$1.80; 100 sybys 20 cents; 1 sybys case 10 cents; 1 roll of blasting paper, 15 cents; 1 oil can, 25 cents; half gallon oil, 25 cents; 1 lamp, 25 cents; soap, 10 cents; 1 cap, 25 cents; smithing, 50 cents; doctor \$1.00 for married men and 50 cents for single men; checks, 50 cents; union, 50 cents. Total \$18.00. This is for soft coal. Stared coal would require a much greater expense.

As a member of the Union Scale committee of the recent joint convention of operators and miners I had an opportunity to learn the condition of the miners in this state. While there is big room for improvement, a fair gain last year, and few concessions this year even little by little will put district 20 of the U. M. W. of A. in the front rank in a few years.

Coal digging is a bigger thing than some people may think. There are 100,000 men digging coal in the United States. Eight thousand in Alabama. Modern civilization rests upon the coal mines. Coal gives the power to coal mines. Two every article in use. The farmers plow and wood choppers' axe. The iron horse that annihilates distance. The proud ship that carries our product to distant shores. The sewing girls needle, and the cannon that belches death to our foe, alike owe their origin to coal.
W. T. WESTBROOK.

1000000
RELIEVED WOMEN
WINE OF CARDUI
has brought permanent relief to a million suffering women who were on their way to premature graves. Mrs. Mitchell was fast declining in health, when Wine of Cardui performed a "wonderful cure" in her case. Also suffered with the age and profuse menstruation. The steady appearance of the menses for two months helped her vitality until she was a physical wreck. Her nervous system gave way. Then came the trial of Wine of Cardui and the cure. Mrs. Mitchell's experience ought to commend Wine of Cardui to suffering women in words of burning eloquence.

WINE OF CARDUI
is within the reach of all. Women who try it are relieved. Ask your druggist for a \$1 bottle of Wine of Cardui and do not take a substitute if he sends you.

Mrs. Willie Mitchell, South Gaston, N. C.:
"Wine of Cardui and Cardui's Pinkettes have performed a miraculous cure in my case. I had borne a great deal with falling of the womb and leucorrhoea, and my nerves came every week for two months and were very painful. My husband suffered me to try Wine of Cardui and Pinkettes, and now the leucorrhoea has disappeared, and I am restored to perfect health."

Send for circular giving special directions, address: "WINE OF CARDUI," every department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THE NUGGET.

DAHLONEGA, AUGUST 17, 1900.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Samuel Goss, of Chicago, has invented a musical bicycle, which can be played at will by the rider.

Numbers of persons died in the north last Sunday from the extreme heat, and one negro down in lower Georgia.

A bill will be introduced in the next Georgia legislature to disfranchise the ignorant negroes, so says the Macon Telegraph.

Dr. Broughton has gone to Europe for his health and Mayor Woodward of Atlanta will get to sleep sound until the divine returns.

The bald headed fly has become so annoying to both men and beast in Floyd county that the farmers fasten a lantern to their stock and plow after night.

Thousands of troops are being sent to China. German Military authority estimate their will be 230,000 men with 500 guns within the next five weeks.

Mr. Towne has declined to accept the nomination for vice president on the populist ticket. The national committee has been called to meet in Chicago Aug. 27th to act on his declination.

The Constitution of Atlanta, is now offering its Daily and Sunday editions complete to new subscribers, from the date the order reaches that office until November 10th for only \$1.00. This campaign offer will take the reader beyond and give him the full news of the Presidential election.

Since the announcement of Frank Lowery, col. as a candidate for sheriff in this county it has given rise to much talk in political circles. Some claim that the democrats put him out and some that the republicans did it. Any way he is out, but it seems that he came out without any solicitation from the negroes as his announcement is a surprise to some of them who do not approve of his move. One colored man takes in the situation this way. He says in the first place Frank knows that he can't be elected. Second if he was (he couldn't give bond and third if he was to give bond he would be a dead nigger.

Sam Robinson, alias Sam Bigsby, the negro who was arrested near Marietta a few days ago, charged with assaulting Mrs. George Inzer has been found guilty and received a death sentence. After his arrest he was carried to Atlanta for safe keeping and was escorted to Marietta for his trial by 100 members of the fifth Georgia and back. He, like most all negroes who are sentenced to hang, says that he is ready to die. Such false statements as this from defendants is liable to cause other ignorant negroes to commit some outrageous crime thinking that they will get to heaven too. We don't believe the Lord has a place for such criminals.

Great excitement has been caused in Cherokee county, North Carolina on account of open rebellion of the citizen against a set that preachers sanctification, or second blessing. One hundred and ten of the citizens met Saturday at the church that had been erected by the set, they burned it to the ground and a Methodist minister preached a sermon to the infuriated crowd while the building was burning. The new religionists a short while after locating in Cherokee county, began teaching baptism of fire, the holy dance and other new religious performances and also espoused the cause of curing diseases by laying on of the hands. Efforts to suppress the set were made through recourse to the court, but ineffectually, and the burning of the church resulted. It was accomplished by over one hundred citizens of the county.—Ex.

The Reunion at Clarksville.

The reunion of the 52nd Ga. Vol. which convened at Clarksville that has been known for years, 46 veterans were present from Georgia, 18 from other states and 4 Union veterans, appropriate speeches being made by both the Blue and the Gray. The meeting was one of great pleasure as will be seen by the following paragraph clipped from the Clarksville Advertiser:

Last Thursday Clarksville opened wide her gates and took to the hearts and homes of her people the veterans of the civil war. At an early hour the members of the 52nd Georgia Regiment, C. S. A., with many other Confederate veterans and their wives, daughters and sons, and quite a number of Federal veterans began to assemble to participate in the reunion of the 52nd regiment, and to do those noble and brave soldiers honor. At 10 o'clock the veterans assembled on the public square and formed in line of march under Capt. Asbury and proceeded by the Demorest band with martial music, marched to the school house. There the veterans attended to the business connected with their association, while a large crowd gathered in the grove opposite, to await their coming. During which time they were entertained by delightful music by the band. After concluding their business the veterans with the old flag of the regiment torn and pierced with twenty-two bullet holes, born at the front of the line, marched down to the stand. At their approach they were greeted with cheers and the strains of Dixie, by the band.

Who is Right.

MR. EDITOR: In your issue of Aug. 2 you copy an article from the Dahlonega Nugget on the Heathen, with a hardshell exhortation from the Jasper Republican on the same subject. Now will you be so kind as to publish the following editorial reply taken from the Advocate of recent date.

The question resolves itself to this. Who is right Paul or the Jasper Republican? Which must I follow Jesus Christ or the editor of the Dahlonega Nugget? As for me, let me hold on to the old Gospel to the Living Christ.

Fraternally,
GEO. P. GARY.
We find the above in the Banks County Journal of the 9th inst. Briefly we will state, if the divine has the least inclination of wanting to go to China he had better follow the editor of the Nugget if he desires to keep whole bones. Whenever the spots of a leopard can be changed and wild turkeys tamed then we will have more confidence in the Chinese and other heathens being taught to serve the Lord according to our custom. Now as to Paul many changes have taken place since he left us. When he was here people might have "prayed for their enemies" but this is not done now by the strictest church members. Only a few days ago a man murdered his brother in this county. When a relative came in to order the coffin we are informed that he was intoxicated besides having more liquor in his pockets, and when the coffin was carried out a jug was put in the vehicle with it. And the night after the coffin was delivered many drunk men surrounded the corpse during prayer. We repeat that there is plenty of work for ministers to do here at home first without having to go into any foreign country in search of non believers.

Camp Meeting Echoes.

The Dahlonega camp meeting closed last Monday and is now a thing of the past. A large number of ministers were present and many able sermons were delivered, but the general attendance was the smallest that has been at any time since the establishment of the place, not beginning until about the middle of the week with but a few dozen people present until Saturday night and Sunday—only four tents being occupied during the whole time, causing them to hold a meeting on Sunday to decide whether they would disband or continue services next year. The tent holders all agreed to be on hand next year with renewed energy.

Some liquor signs on Sunday in the outskirts of the encampment. Nearly every candidate and those intending to turn were on hand most of whom thought more about politics than religion.

Soon after the meeting commenced a certain fellow stole a lot of beans, chickens and tomatoes from a tent holder and brought them to town and sold them before the owner could overtake him.

Friday night a load of drunken fellows came in the city yelling and making so much noise that it disturbed all the natives, causing Marshal Harbison to spend much of his time out on the roadside of nights afterwards.

During the afternoon services Dahlonega a young man and his sweetheart stood off a little ways from the preacher and wrote words of love on a piece of paper and passed to each other while the good man talked about the Bible.

After services were over Sunday night a young man wanted to select his sisters escort and tried to pick a fuss out of the one she was going with.

FINIS.

We learn that Rev. W. A. Jackson, formerly of this county, died a few days ago in Athens, Ga. Mr. Jackson was one of Lumpkin's foremost young men and we, together with the community at large regret to hear of his death. One of his brothers in Florida had only died a few weeks previous.

Mr. Woody Displeased.

From a letter received from A. W. Woody it seems that a recent one sent to the Signal was changed so that he would not have recognized any part of it had it not been for his signature. Mr. Woody is the strongest kind of a republican and from what he says his letter was made to read democratic. The following is a copy of a letter sent to the editor of the Signal which explains itself:

BRUSH PLAIN, Wash.,
Aug. 6, 1900.
J. W. WOODWARD:—
The Signal of a recent date came to hand with a letter in it, printed above my name, but the same had been so suppressed, and so many of your Bryan phrases added, that I simply disclaim the letter.

I hardly would have thought that you would have "doctored" my letter to make it read so ridiculous. I have, as your books will show, been a patron of the Signal for over 20 years—but we now part company. The money I sent to pay in advance you may keep for your trouble and pains in fixing my letter to your notion. You will please discontinue sending the paper. I shall in the future rely upon the NUGGET for my news of that part.
A. W. WOODY.

The Democratic Primary.

The first democratic primary for county officers in Lumpkin county since we can remember was held last Wednesday, the most of the candidates being selected without opposition. The following is the result:

For State Senate:
W. H. McAfee.....214
F. M. Williams.....199
For Representative:
G. D. Bruce.....402
For Ordinary:
John Huff.....373
For Sheriff:
James M. Davis.....404
For Clerk:
John H. Moore.....389
For Tax Receiver:
C. W. Stargel.....372
For Tax Collector:
F. W. Wimpy.....203
E. J. Walden.....200
For County Treasurer:
J. B. Brown.....236
B. C. Bryan.....178
For Surveyor:
V. R. Hicks.....395
For Coroner:
G. McGuire.....72
John Ricketts.....64
Total votes polled 455.

The members of the Presbyterian church will give an ice cream festival Thursday night.

Andrew Bryant, who killed Sol Crain with a mattock in Dawson county a few days ago was last week found guilty of involuntary manslaughter and recommended to the mercy of the court, who was fined \$500 or twelve months in the penitentiary. The fine was paid.

SCROFULA

thin blood, weak lungs and paleness. You have them in hot weather as well as in cold. SCOTT'S EMULSION cures them in summer as in winter. It is creamy looking and pleasant tasting.

THE NUGGET.

Dahlonega, August 17, 1900.

Our subscription list still continues to grow every day.

Miss Mary Lou Boartfield left last Saturday on a visit to relatives in Atlanta.

J. M. Brookshier will have his store house completed and occupying it in a very short time.

T. R. Loggins, after a long illness died at his father's house at the Calhoun mine last Friday afternoon aged 24 and was buried in Mt. Hope Cemetery the following day. He had been sick more than four months and endured much pain. His lungs were completely gone caused by an abscess.

On Thursday of last week three or four negroes and a white man spent an hour and a half in the cemetery under a cedar tree playing cards and drinking liquor. There is no use of sending preachers off in search of heathens to teach them the Bible until more attention is given in this line here at home.

Look sharp, girls. Your artist on College Street will give a free photograph to the first lady reaching his studio with the Nugget containing this local. Age must be between ten and twenty five, of good character and comely appearance. The above is to introduce a certain class of work and applies to one only.

R. L. McCabe and his two Columbus, O., friends, Hon. W. R. Shilts and A. F. McCormick, after spending a couple of days in our city looking over the mines, left for their homes on Friday last highly pleased with what they saw, so much so that those not already interested made an investment at once. All three are prominent citizens of that city. Mr. Shilts is now serving his second term in the legislature. Now that they have interests in the mines here we will likely have an occasional visit from them at least.

Wonder why it is that the devil don't catch those people in Gainesville who make it a point to lie about Dahlonega? They not only tell that we have forty cases of typhoid fever here but informed some visitors the other day that they couldn't even get a place to sleep in Dahlonega, but the strangers paid no attention to them and came on and got good accommodations after going to a physician and finding out that the fever report was all false—just told to injure Dahlonega and benefit Gainesville. Any one wishing to come here can soon find out these facts by stepping to the telephone office in Gainesville and calling up any physician or hotel proprietor in Dahlonega.

There are two beautiful twin sisters residing out in the western portion of the county so near alike that even the neighbors can't tell one from the other. For a short while like Reid, of Yahoola district, has been paying his respects to one of them. Sunday before last he attended church in that section, who, after services were over started off home with his supposed sweetheart. After getting off from the church a short distance he discovered that he was with the wrong girl—his being on behind somewhere. At once he started back in search of the one of his heart, remembering that the lady was a black dress when last seen. It was not long, however until he reached his destination and in the crowd he espied a lady dressed in black. He made for her and was not long in discovering that he had made another mistake, the one he approached being the mother of the two young ladies who also wore a black dress. This was almost enough to cause him to want to commit suicide, but after coming to his right mind he succeeded in finding the right one and carrying her home, after undergoing much embarrassment. Such is life.

The business of Dahlonega is increasing every day. So would her population if people could get houses.

Strangers are flocking to Dahlonega almost every day to see the mines and the latest improved machinery for working them.

The types made us say that the picnic would take place at Oak Grove on next Sunday week when it should have been Saturday week.

FOR SALE.—Nearly new seven room house on Murray's Heights. Lot 210x210 feet. Now paying twelve per cent. on price asked.

O. J. LILLY.
W. M. Smith & Bro., of Porter Springs, are going to make a change and desire a settlement with all indebted to them. See notice elsewhere.

News reached here last Monday that W. C. Moore, who left for his old home in Rome a few days ago, was down sick believed to be taking pneumonia fever. Mrs. Moore left that night for the city.

The demand for vacant houses still continue in Dahlonega, and we can't see why it is that mortified men with plenty of real estate don't put up some buildings. It would pay them a big interest on their money.

Preparations are being made to make Cane Creek falls a place of more interest than usual by building dressing houses for those who wish to take a bath in the pure mountain stream. The road from where it leaves the main one is also being improved.

J. E. Tate is able to sell you goods cheaper than any one else in Dahlonega as he attends to his own business and has no house rent to pay. At his store you can get one dozen fruit jars for \$1.10, for which you have to pay \$1.50 elsewhere. Many other leading articles in proportion.

Ten-fourth sheeting 14c. A nice line of embroidery and insertion just in. Good steel enameled dish pans, coffee pots and preserving kettles, sauce pans also, good eight day mantel clocks \$1.98, gents' and ladies' handkerchiefs at the lowest possible cash price we sell. B. R. MEADERS & SONS.

Wm. Dyre, the democratic nominee for Ordinary of Hall county, spent a day or so in Dahlonega this week. He has the appearance of being a clever man and is no doubt popular else he would not have been selected to make the race for such an important office as ordinary in as big a county as Hall.

Something new is taking place in Dahlonega every day. John A. Howard brought to our office last Tuesday two eggs connected together that were produced by one of his hens at one laying. One of them is full size hard shell and the other is a soft shell. You might think that this hen was more valuable than others but it required a weeks sitting for her to produce this curiosity.

Everything seems to be quiet in railroad matters here now. Most everybody are about gone crazy over politics and railroads are forgotten. It was believed before the democratic rally down at Auraria that eleven or twelve hundred dollars would be raised there on that day for the Dahlonega and Gainesville railroad but if the matter was even mentioned we never heard of it.

On Saturday evening about a half an hour after dark Cader Corn lost his life by the hand of his brother a few miles from Dahlonega in the western portion of the county while sitting on a barrel of brandy and another cold blooded murder will be recorded on the criminal docket of the Superior Court of Lumpkin county. They were partners in the manufacture of brandy and after a settlement at that time Dan Corn being dissatisfied with the same, went off and got his gun and when he returned shot his brother in the side just below the ribs and left for parts unknown, killing him almost instantly.

A divine by the name of O'Kelley will likely be selected to supply the Baptist church at Dahlonega next year.

Revs. Jamison and Hawkins, two noted Baptist divines passed through Dahlonega this week on their way to the Noltey River Association which is in session over in Fannin county.

We regret to learn that Dr. Ira E. Packard, father of F. S. Packard, of the Calhoun mine, died at his home in Sturges Mich., on the 2nd day of August, aged 92, years one month and 26 days.

The trustees have decided to build eight more cottages on the college property for the accommodation of students who may wish to attend the institution. Geo. P. Duncan has been awarded the contract.

We notice that F. G. Thomson and a number of his friends were here the first of the week from the north. One two hundred pounder purchased a shovel as soon as he arrived and was soon out on the belt making an investigation.

J. L. Anderson, of Dawson county, was bound over by Com. Baker the other day for "moon-shining." Jim Denney, of the same county was also arrested by Marshal Grizzle on two bench warrants for similar offenses.

As soon as James Phillips vacated his home place purchased by the Consolidated, applications for the house commenced coming in to Mr. Adams until they soon reached 20. This shows how badly vacant houses are needed in Dahlonega.

Dahlonega's educational facilities have caused a number of persons to move here to educate their children. The small ones are trained at the Graded School after which they can enter the N. G. A. College. Both institutions being free to all.

Notwithstanding the fall session of the N. G. A. College does not begin until the first Monday in next month some students have already arrived. From the letters President Stewart is receiving every day concerning the college by those desiring to enter the fall session, promises to be largely attended.

The jury revisors completed their work last Saturday in the forenoon after drawing the jury for October term of Lumpkin Superior Court. There are 142 persons in the grand jury box and 673 in the special, being an increase of about one hundred over last year. A considerable change was made. We notice mens names on the list that were never in the box before, while others served who on the grand jury were left out entirely.

It seems that the executive committee of the Consolidated Co. have decided to carry on a certain amount of Sunday work at the mines, a portion of which is entirely unnecessary, only to make money and will cause some one to get into trouble, for every one who has been guilty of violating this law in Georgia has been prosecuted and made to pay a fine. Even the Seven Days Adventists, which is their religion, and a farmer down in Georgia who had gotten behind and was only burning a little brush in order to catch up. If it was not a violation of law to work here on Sunday but few laborers wish to do it. Last Saturday when the hands were told that they were expected back the next morning the engineer quit and moved back to his home in Cherokee county. And at 12 o'clock Saturday night all the colored hands feeding the crusher stepped out and went home, causing the foreman to have to shut down 60 stamps of the mill and put the hands at the crusher and then they only run till 2:30. Many other hands will retire when told to work on Sunday. It is not only against their religion but against the laws of the country and they don't propose to do it and we don't blame them.

J. A. Howard is now behind the counter at J. F. Moores.

If you enjoy good singing go up to the camp ground next Sunday.

A little child of Thomas Bowers, residing a few miles from Dahlonega, died one day last week.

We received 41 new subscribers to the Nugget last week, the names and addresses of which will be given at the last of the month.

Mr. Hunter, an excellent mechanic and contractor of Atlanta, who has been engaged here for several months has moved his family to our city. Welcome.

BARGAINS.—For the next twenty days I will sell goods at greatly reduced prices to avoid moving them. Come quick if you want bargains. J. H. McKee.

Rev. Thomas K. Postell will preach at Town Creek church in White county next Sunday. Many people will be there as this divine never fails to attract a large concourse of people.

A reduction has been made in the price of messages over the Dahlonega telephone line as follows: To Gainesville 15 cents and to Murrayville 10 cents, and the same to Porter Springs.

Tom Sain is going to make some more brags this season. He came in last Saturday to make the required bond but had to go up to the camp ground and get two members of the church to sign it before the law was satisfied.

Prof. Martin, principal of the Graded School, has returned to Dahlonega after spending some time at Ferry, Ga., who is ready to take his position in the school at the opening of the fall term on the first Monday in next month.

G. H. McGuire has moved his jewelry shop into his new building on Main Street between Capt. J. W. Woodwards and the Masonic Hall where he will be pleased to have those wishing any jewelry or anything else done in his line to call on him.

A certain fellow who rode out Friday night for some mountain dew for camp meeting purposes had bad luck. After getting a two gallon jug filled and placing it on his mule ready to mount, the animal got a scent of the mean liquor causing it to kick up and drop the vessel on a rock and the liquid was soon in the stomach of the earth.

Marshal Harbison fixed last Monday to clean out the cemetery and Mayor Price invited all persons who had lots to come in and cut the weeds down so as to cause strangers to think that the dead had not been forgotten, but only two persons having deceased relatives there made their appearance, and to day there stands costly monuments in the cemetery having bushes and weeds around them almost as high as the pieces of marble.

A good joke is told on a certain Sander School superintendent residing a few miles out in the country who is also a school teacher and a merchant, who waits on customers of mornings and afternoons while not teaching and all day Saturday. The other Sunday, so it is said, after concluding his Sunday school address said: "Brethren and friends, those having eggs and chickens to sell will please bring them to my store soon of a morning or late in the afternoon."

Last Saturday morning when G. D. Bruce went to get his pocket book to make some change he found it gone, not remembering having it since the day before out at Davis' law ground. He at once retraced his steps accompanied by "Shotgun" Walker. They carefully looked on the way and after spending several hours in search about the law ground were about to return in despair, but "Shotgun" didn't feel like giving it up until making another search and it was not long until he espied it near the spring. You can imagine how proud Lon was for the pocket book contained \$84.

Mining Notes.

A new vein was struck in the shaft on Crown Mountain last week. An assay is being made from this and other veins on the property, the value of which will be given as soon as the test is completed.

Lumber is being received to build a shaft house on the Standard property. The shaft is now about 40 feet deep. The grading for the new mill still continues. It is a considerable job as it requires a good size space of ground for a hundred and twenty stamp mill.

S. C. Graham, of Los Angeles, Fla., was registered at Hall's Villa last Saturday. Mr. Graham has been making a general investigation of the lands and timber of the counties of Hall, Dawson, White, Habersham and Lumpkin for more than three weeks.

W. H. Satterfield, of Lumpkin, does the gold prospecting for him and the timber shows for itself. We do not know Mr. Graham's object but there is one thing certain he is not doing all this for his health.

L. S. Larrabee, of Detroit, Mich., is now the general manager of what is known here as the Thompson mine in White county, which was recently given another name under the laws of Michigan, which we cannot call just at this moment. A good deal of work has been done in time past by different parties but the present manager proposes to run the mine under a much larger scale and different method almost entirely. An air compressor will be used to run the drills in both shaft and tunnels which will enable them to work the mine much faster and at an increased profit.

Geo. W. Stamon, who has been operating the Hamby mine in White county for Mr. Martin since January dropped in to see us and swelled up editors pockets book, while here last Saturday on a visit to relatives, and gave a very encouraging report of his operations. To be pointed they are making money. This mine is supplied with a twenty stamp mill—each stamp weighing 750 pounds, being without a single concentrator or any improved machinery, and it is safe to say that at least half the gold is lost. Some splendid ore is being taken out of a 120 foot shaft, the vein in which is gradually increasing as it is followed. Some profitable mining is also being done on Mr. Martins property some two miles from the Hamby.

The work of Crown Mountain is progressing rapidly, so much so that the directors have thought proper to increase the shares of the stock from \$25 to \$50. The number of hands on the canal has been reduced to about 75. Most of these are engaged in doing the rock work while the others are cutting the ditch two feet wider and working on flumes. It is a mystery to a number of the natives up there about running water in a ditch two miles, then generating the power and conveying it by wire twelve miles and running a 60 stamp mill and other machinery down here at Dahlonega. It may seem very strange to these clever mountain people but if they live only a few months longer they will see these things taking place.

Everything is moving along down at the Hand as usual—making money. The clean ups are better each week, giving perfect satisfaction. And as told us last week by Mr. Breyman, vice president of the company, the veins still continue to grow larger and richer as they are following which is certainly very encouraging to the investors—not only to the investors but everybody in this whole section, for the mining industry is the life of this country. The air compressor, which is to run the drills in cutting the water tunnel through the Blue Ridge was put in position last week. A number of hands under the supervision of Mr. Pannel besides doing this made other preparations

to begin this work. The tunnel is fifteen hundred feet long and it is calculated to cut about fourteen feet—seven on each side, of the mountain—a day provided no accidents occur. The first ditch to be dug beyond the mountain is one and a half miles long and the second one is three miles in length which is to convey the water from one stream to the other. Both these will be done before the tunnel is done as it will take about five months to complete the work. We understand that no mill will be built at the Barlow or Findley, for a while at least. The ore from both these mines will be shipped by electric cars and crushed at the Hand. Much of the grading of the tramway from the Hand to the Findley has already been done and the survey to the Barlow made. This line is about five miles long.

Every stranger who visits this section is very much surprised at the quality and quantity of gold ore we have in Lumpkin co. Before visiting the place they wonder "if there is so much gold in this country why it is that the natives have not worked the mines more extensively after the discovery of the metal many years ago?" This is very easily explained. Until recent years veins were worked down to water level and abandoned on account of the sulphurates—no way to save the gold then. And since the manufacture of suitable machinery for the handling of sulphurates the Southern states were damaged so by the civil war that our citizens have not recovered yet from the heavy blow that it gave them, rendering them unable to make an outlay of money necessary to do the work. After so long a time some capitalists of the north have been convinced of all these facts, and since the introduction of the new method of mining has been adopted by the Consolidated Co. they have been able to satisfy all parties of the north that our assertions are true. They are making big money, causing other similar enterprises to spring up and in the course of a few more years doubtless many thousands of hands will be engaged in gold mining in this part of Georgia causing a rush in this direction instead of the west. No longer than last week a gentleman after spending several days in an investigation of the gold fields here stated just before he departed that judging from what he had seen the mines here compared more favorable than any of those of the west, and if the veins continued to grow larger and richer as they are followed it would not take long for this section to be ahead of Cripple Creek. Very often parties of the north are induced to take stock in some of the gold mines of Lumpkin county by their friends before ever seeing them, and frequently after a personal inspection they increase their stock and sometimes double it. These are facts and if any one disbelieves it let them come and see and learn from their own observation and knowledge.

J. F. Moore visited Rome this week to see his sick brother.

A corps of United States surveyors are stationed here for a few days using improved surveying instruments and getting big salaries.

Two weddings occurred in the western portion of the county last Sunday being Miss Gussie Gaydon to Mr. Ed. Newberry, and Miss Eliza Hix to Mr. Luther Fletcher. May peace and prosperity attend them on every hand is our best wishes.

Col. Charters told them in his speech at Auraria last Wednesday that the reason he sent for Eula Jefferson, col., while in the legislature was to clean out spittoons, but he didn't tell you why he nominated Capt. Ingersoll, one of the strongest republicans in Lumpkin county for alderman last November. We can, Capt. Ingersoll can control more votes than any other man in Lumpkin county and would have been mayor to-day had he asked for it.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by F. W. Hall Mdee. Co.

J. G. GROVE,

Dry Goods, Hats, Shoes, Hardware, Etc.

THE NUGGET.

DAHLONEGA, AUGUST 24, 1900.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

There is reported to be more than 50 cases of yellow fever in Havana.

It seems that nothing will do China but war, and she is going to give America and several other nations a good deal of trouble before it ends.

A newspaper account and a medical bill are generally settled last, though they should come first as the newspaper enables us to keep up with the living and the physician keeps us away from the dead.—Ex.

We call your attention to the announcement of W. H. Donaldson for tax collector in another column. Will was born and reared in Lumpkin county, is a good industrious honest citizen and will endeavor to do his duty if elected.

By referring to the proper place you will find the announcement of L. B. Walker, who asks your support for the office of tax receiver being the first time he has ever asked for an office. Lark is pretty well known throughout the county and will make an interesting race.

You will find the announcement of the ticket nominated by the democrats for the various offices. All the parties are fully competent but there are others in the field fully as well fit who is preferred to some and we will only support a portion of the ticket named.

It's right funny. Two years ago parties here who didn't take enough interest in politics to register have been taking the stump and say that those voting in the primary who don't stick to it will be put on their black list. Besides this, one who also failed to register then, now asks for office.

The president recently granted a pardon to Drew Smith, a Georgian who was convicted last May of illicit distilling, and sentenced to four months imprisonment, with a fine of \$100. While in prison some one poisoned Smith's wife and five children, one of the children dying. The man was pardoned because his family was destitute.

Your attention is directed to the announcement of John W. Satterfield whose friends want him re-elected to the office of coroner again. Uncle John has held this position to the satisfaction of all for many years and there is no use of a change. He has always received a big vote for this office but we want his friends to give him a bigger one this time.

Troops were sent to Liberty county last Friday to quiet a riot between the whites and the blacks. An attempt was made to burn Liberty city and Wadsworthville and to wreck a plant system passenger train at Airman's mill, supposed to be by negroes. Several negroes were taken out during the night and whipped by crowds of whites for alleged incendiary speeches they had made.

The old soldiers had quite a nice time at their reunion at Clarksville last Thursday. But from all appearance there must have been battle fought somewhere between Nacoochee and Clarksville. From the wreck there must have been foul play shown. When it comes to a married man taking a married woman away from her husband and children and making her drunk it is a disgrace in the first degree, a shame upon God's green and beautiful earth. Just such conduct as this has been taking place for the last seven years up here in North east part of White county. We need the Missionaries up here as much as we need them in China or the eyes of Judge Estes turned this way. I can't see, I don't understand why such characters can read the hand writing on the wall.—Cleveland Courier.

Mining Notes.

We understand that Robt. Poston is doing some good placer work down on the Calhoun.

John Bramlett, Mark Gibbs and Rugus Allison made 106 pennyweights of gold on the St. George, White county, in less than eight days.

Whorton Anderson, of the Calhoun was up awhile last Saturday. His placer diggings still continue with a fine show and last of the month when he cleans up we may expect to see another large fine bar of gold.

They struck it rich on Turkey Hill last week, the strike being made by Jake Loggins and Teal. An old miner after visiting the place says that it is the prettiest thing he ever looked at in the way of a gold mine. We saw some of the ore and it was certainly an eye opener.

Messrs. Greenfield & Crawford near the Betz mine in this county are going to erect a stamp mill to crush the large quantity of ore already taken out. Their shaft has reached a depth of 150 feet, the ore in it and at other places on the property being rich enough and plentiful enough to justify them in building the mill, feeling assured that they will be able to handle it easily and cheaply for many years to come.

Birch Bros. have been so busy looking after their dredge boat since beginning to run it day and night that neither have been up to see us for some time, nevertheless we hear from down there occasionally and the large amount of gold they are taking from the bed of the Chestatee river is an interesting sight to look at. The weather has been fine for their work, no rains having occurred heavy enough for some time to retard the progress of their operations the least bit.

For some time the Dahlonega Gold Mining and Milling Company have had an option on the Briar Patch property and have been doing development work on the same with an eye of taking it if found to be valuable enough to suit them. No doubt it has for Prof. Ben Hall, of Atlanta, is now engaged in surveying a lengthy canal from some point near Dawson county near Amicalola Falls to the mine in Lumpkin. It is said that they propose to spend \$200,000 in equipping the property and getting it in first class mining order.

An Ohio gentleman has been here for several days testing the Yahoola below the several mills from the mouth on up to see if it will pay him to put in a boat to work the bed of the creek. Much gold for many years has been lost in this stream from the various old fashion stamp mills, saying nothing of the metal that has washed down from the hills on either side. A satisfactory test was made in the Yahoola a few years ago by a gentleman who commenced a boat but didn't have sufficient means to complete and put it into operation, otherwise it would have been in successful operation to-day. The old saying of its "taking money to make money" is true, and we hope now that it is in the hands of one who will put the enterprise through.

The Consolidated is moving all its operations along in the usual business like way. The mill at the Hand continues to run both day and night on ore that is improving the deeper they follow it. Shaft No. 2 will soon have its hoisting fixtures ready to begin to furnish the mill with a good supply of ore. And preparations are being made to add more water so as to furnish a sufficient supply to do anything that is desired at any season of the year, a large force of hands being put to work on the canal and Blue Ridge tunnel this week working to this point. This is a move in the right direction for the water gets very scarce here during the fall season and is sometimes a drawback to the mining industry where arrangements have not been made for a sufficient supply in due time.

It is rumored that another mining enterprise will begin operation in Lumpkin county some time in the near future, being the Capps, owned by Mr. Vanderventer, a resident of Tennessee, whose recent investigation gave such satisfaction as to cause him to make up his mind to move in this direction. We are informed that in cleaning out an old shaft a sulphuretted vein was struck which was said to be worth one hundred and twenty-four dollars per ton, and what makes it most interesting the vein is a seven "footers."

New discoveries continue to be made on Crown Mountain, the last one being struck last week on the south side of the Mountain. We had the pleasure of seeing a lot of the ore last Saturday taken from the new vein which was certainly pleasing to the eye even to those having no interest in this enterprise, and how happy such finds cause the owners can better be imagined than described. The ore was perfectly speckled with gold being visible without the aid of any kind of a magnifying glass. Of course it is difficult to estimate the value of such rich ore but miners who saw it say that at the least calculation it was worth half a pennyweight to the pound. All work preparatory to commence working the Crown Mountain is moving long as fast as possible. The work of putting up the posts for the wires, to be used in the transmission of power to the plant commenced last Wednesday.

A stranger was here this week investigating some of the mica discoveries near Porter Springs. There is plenty of mica in this county but as yet it has not been found in large enough seams places to pay for shipping unless we had a railroad, though it might improve if followed deep enough. This has never been tried here yet, as gold mining has attracted most every ones attention in this section in search of minerals. The day may yet come when mica mining will be done on a large scale when those understanding the business take the matter up.

Democrats Appoint a New Committee.

On Thursday of last week after the returns were in from the democratic primary all met in the court house and after the result was declared and a kind of a love feast gone through with a committee was chosen consisting of G. W. Walker, J. M. Brooksher, M. C. Chester, W. P. Gillispie and H. D. Gurley to select an executive committee for the county who made a report and the following is the result as adopted:
Chairman—H. C. Wheelchel.
Auraria—J. A. Hollifield.
Cane Creek—E. J. Walden.
Chestatee—T. N. Hutson.
Crummy—S. D. Grindle.
Davis—W. W. Scott.
Dahlonega—J. M. Brooksher.
Frogtown—J. F. Sargent.
Hightower—E. D. Gaddis.
Mill Creek—H. Chambers.
Martin's Ford—John Wacaster.
Porter Springs—Tilman Davis.
Shoal Creek—J. H. Redmond.
Vahoo—W. P. Gillispie.
Nimblewill—M. C. Chester.
Yahoola—John A. Marr.
Jones' Creek—J. B. Swancy.

Any one losing a bay horse, blaze face with both hind feet white can learn its whereabouts by coming and paying for this notice. It was found yond side of the Blue Ridge several days ago. A man was first seen coming this way on it bareback with a little budget in his hand. The horse is about eight years old.

FRANK L. REESE.—White lawns, gingham, Lonsdale cambric, fine braid, Hamburg edging, ladies' collars and linen handkerchiefs, boys shirts collars and ties, rugs and hammocks. Blocks xxx fresh soda crackers, best apple vinegar, green coffee and tea and the only dealer in Simon pure leaf hard in the city. Try it.

The republicans held a caucus last Wednesday night in Dahlonega.

Prof. Vickery and lady will return from Hartwell to-day or tomorrow.

We understand that M. G. Head will open out a store as soon as J. M. Brooksher vacates his building.

The Consolidated Co's labortory has been moved from their store building down to the mines.

The second annual session of the Dahlonega public schools will begin Tuesday, Sept. 4, at 8:20 a. m.

The ice cream festival by the Presbyterian ladies has been postponed until next Thursday evening, 30 inst.

Luther Hightower had to empty his pistol at a negro Monday night before he would drop a stolen chicken.

We suppose that the law to impound cattle in Dahlonega has been repealed as we see a councilman's cow and several others every morning at 4 o'clock on the streets.

The Cleveland Courier advises people not to mix their politics and religion. That is not often done now days. It's politics first and then religion with the most of them.

The crowd that went off a short distance from Dahlonega last Sunday to drink wine drank so much that it caused them to swell up and strain their voices to the annoyance of every one passing by.

It is thought by some since Dr. Jones has been appointed a member of the city council that he will succeed in getting his measure through of a telephone line from Gainesville via Auraria being allowed to enter the city.

Mrs. Elliott, an old lady who lived in Crumby's district—mother of James and Dock Elliott—died last Monday. The deceased was loved and respected by all who knew her and will be greatly missed in the community in which she lived.

In order to make room for our fall line of clothing we offer our light weight goods at an below cost. We are in position to meet Atlanta prices on clothing. The proof of the "padding is the eating." Come and see. Anderson & Jones.

G. H. McGuire, the jeweler, is now located in his new house next to the residence of Capt. Woodward on Clarksville street with a full and complete line of goods generally carried in his business. Besides he is ready to do watch and clock repairing upon short notice.

J. F. Castleberry comes to the front this week and announces himself as a candidate for the Senate of this district. Mr. Castleberry is well known to you, who has served in this capacity before and always looked after his constituents interests in every instance.

Is Baby Thin

this summer? Then add a little SCOTT'S EMULSION to his milk three times a day. It is astonishing how fast he will improve. If he nurses, let the mother take the Emulsion. 50c. and \$1.00; all druggists.

Democratic Ticket.

We are authorized to announce the following ticket which was elected at the democratic primary of Lumpkin county held on the 15th day of August to be supported at the ensuing election in October:
For State Senator, 32nd District: W. H. McAFEE.
For House of Representative: G. D. BRUCE.

For Ordinary: JOHN HUF.
For Sheriff: JAMES M. DAVIS.
For Clerk Superior Court: JOHN H. MOORE.
For Tax Receiver: C. W. STARGEL.
For Tax Collector: E. W. WIMPY.
For County Treasurer: J. B. BROWN.
For County Surveyor: V. R. HICKS.
For Coroner: G. McGUIRE.

To the voters of the 32nd Senatorial Dist.
At the solicitation of many friends I have decided to make the race for the Senate of this district and in doing so most earnestly ask the support of the voters of the same promising if elected that I will ever have an eye to all interests of my country, district and state.
Respectfully
J. F. CASTLEBERRY.

We are authorized to announce the name of L. B. Walker for tax receiver of Lumpkin county, who earnestly asks the support of all classes, and promises if elected to do his full duty to please the people.

To the voters of Lumpkin county:
I respectfully announce myself as a candidate for tax collector and ask your support at the ensuing election in October, promising if elected to perform the duties of such office to the best of my ability.
W. H. DONALDSON.

We are authorized to announce the name of A. H. Stargel as a candidate for tax collector of Lumpkin county at the ensuing election in October who most respectfully asks the support of every qualified voter.

The One Day Cold Cure.
For cold in the head and sore throat use Kersey's Chocolate Laxative Quinine, the "One Day Cold Cure."

NOTICE.

All who are indebted to the firm of W. H. Smith & Bro., Porter Springs, Ga., either by note or account are hereby notified to come forward and make prompt and full settlement at once as the latter gets out to his brother who will continue to do business at Porter Springs and the younger will make his place of business in Dahlonega, which compels us to make full settlement on or before Nov. 1st. Settle up and save cost.
W. H. SMITH & BRO.

Georgia, Lumpkin county:
Sarah S. Adams, having made application for a twelve months support out of the estate of James M. Adams, and appraisers duly appointed to get apart the same having filed their return, all persons concerned are hereby required to show cause before the Court of Ordinary of said county on the first Monday in September, 1900, why said application should not be granted. This the 31st day of October 1900
W. H. C. TAYLOR, Ordinary.

THE NUGGET.

DALHONOA, AUGUST 24, 1902.

Prof. J. W. Boyd now occupies his new residence on West View. Mechanics are now engaged in making improvements on the Hall House getting it in good shape for occupancy.

The carpenters hammer and saw are still making interesting music to those having the welfare of Dahlonega at heart.

We were pleased to see Prof. Ben Hall of Atlanta in our city last Sunday, who came in with Dr. Craven of Auraria.

A new subscriber writing us says: "I have been taking your paper for a short while only, but I must congratulate the editor for its value."

J. H. McKee has closed a contract with W. C. Thomas for the lease of his storehouse on the public square and will move into it about the first of next month.

We had the pleasure of getting acquainted with a Mr. Tatum, of Florida, who spent a day or two in Dahlonega last week looking at the mines and other things of interest.

Every candidate, both independent and nominated takes the Nugget but one. Let this one send in his money so as to be among the biggest crowd and not look so lonesome.

The pastor of the Presbyterian church couldn't be here last Sunday and his place was filled by Rev. Jas. Wood Pogue, of Lawrenceville, who interested his hearers with an excellent sermon.

We were glad to see our old friend E. F. Waters in Dahlonega last Saturday. Frank left this country some twelve or thirteen years ago and is now doing a prosperous mercantile business at Ellijay, Ga.

Quite a number of our citizens attended Mossy Creek campmeeting in White county last Saturday and Sunday. While other camp grounds in this section seem to be receiving less attention old Mossy Creek is increasing in interest.

Just over the line in Lumpkin Co. lives a woman 99 years of age the mother of 16 children and has been a member of the Methodist Church for 36 years, she is still very active and does most of her own house work. So says the Cleveland-Courier.

A couple of parties were up from Atlanta last week having an eye of connecting us by rail with that city via Gainesville or direct to Atlanta. It would take some longer to complete a railroad direct to Atlanta but it would be a better paying road.

Used to men in this country had to labor from sun to sun both winter and summer. Now the ten hour system has been adopted which gives laborers more time to rest and keep posted as to what is going in the outside world which is a great advantage to them and their children.

Since the new road has been made and dressing houses erected out at Cane Creek falls it has gotten to be a great pleasure resort. Frequently from forty to fifty persons go out there during the day and take a bath. The improvements cost our citizens only about seventy-five dollars.

W. T. Bryson while in town last Saturday exhibited to us two \$5.00 gold pieces. One was coined at Dahlonega in 1860 and the other at San Francisco in 1894. The one coined at Dahlonega was made from Lumpkin county gold we suppose and was much yellower than the other. Then he had a Spanish coin called a real—two and a half cents—being of silver about as large as a twenty-five cent gold piece. Besides this he showed us the nice gold nugget recently picked up on the Packard property about four miles from Dahlonega.

Either to sell or to swap a crane for a thirty or forty horse power boiler. Apply or write to James E. Sutton, Pleasant Retreat, Ga.

When wanting the Nugget send in the cash. Cash is a much more convenient for us to handle than a book with a whole lot of accounts on it.

Mrs. J. S. Stewart was slightly injured last Monday while out driving by some part of the buggy breaking causing her to fall out on the ground.

FOR SALE.—Nearly new seven room house on Murray's Heights. Lot 210x210 feet. Now paying twelve per cent. on price asked. O. J. Linley.

Mr. Henley, who has been general manager of the Hall, Commissary for a long time to the regret of his many friends here will leave Dahlonega first of September and go to Decatur.

Mrs. W. W. McAfee and Mrs. Thos. W. Pritt, of Atlanta, the latter a sister of Mrs. W. H. McAfee, after spending several days in Dahlonega will leave for their homes to-morrow.

Parties who attended Mossy Creek camp meeting from Dahlonega informs us that there was a large crowd in attendance, a good deal of liquor on hand but everything passed off quiet and peaceable.

The gentlemen, representing the Christian Index who walked off of the rock wall at the end of Hall's Villa one night some time ago while in Dahlonega, getting jolted up considerably, has notified the city council that he will accept one hundred and fifty dollars for the fall. They notified him that his wishes would not be acceded to and we are not able to say now what steps he will make to get it. He certainly estimates himself to be very valuable. We learn that no other physician would have repaired him for one dollar.

Ben Smith, of Porter Springs attended Mossy Creek last Sunday. That night he together with his friend drove out into the country to a farmers house having a beautiful daughter who had attracted his attention in that direction before. The night being dark and not wishing to disturb the old man he went to the stable to put up his horse himself for a short time. When they got ready to leave it was still dark and he went to harness his horse without any light. After consuming some time in the fruitless effort to bridle his animal his friend struck a match when he beheld he had been trying to bridle the farmers' horse instead of his horse which had been changed into another stall after they had gone to the house.

Dan Corn, who killed his brother Kader last week in this county is still at large yet, although sheriff Davis has made one or two searches for him. It is reported that he left last Friday for another clime. We understand that soon after the murder he said that he wouldn't have killed his brother for a house full of gold, but it is too late for him to regret it now. We can hear of no cause why he did it only that Kader refused to step the wagon and give him a drink of brandy they were hauling to the ware house. We are informed that Dan set around with his gun all day after the killing near his father's and wanted to go into the house and see his dead brother but his admittance was refused by his father for fear that another row would occur, though it is reported here that he did go into the cemetery and look over into the grave before they covered the corpse up. The only witnesses to the murder is George Corn and his wife who were in the wagon at the time the deed was committed. Kader was sitting on a barrel of brandy and as soon as the gun fired the horses ran and he fell out into the road and Dan left for the woods. He only lived long enough to utter one word. This is a horrible affair, one which is regretted by every citizen of the county.

A little boy of Wash Jenkins fell off of a log one day last week and broke his left arm.

The tower at the new Baptist church presents a nice appearance since its completion.

B. R. Meaders now owns the John Simmons property in Dahlonega adjoining him on Clarksville street.

Miss Annie Grimes, of Greensboro, Ga., came up on a visit last week and was the guest of Mr. and Mrs. W. E. Mathews.

Jim Austin, residing in the eastern portion of the county said he lost all his best water melons the other day, by parties who attended Mossy Creek meeting.

A good deal of brandy drinking up about the meeting at Hightower church last Sunday. A pistol was fired in about 75 yards from the church during services.

A singing convention was organized at the Dahlonega camp ground last Sunday and a union singing will take place at Jones Chapel on the second Sunday in next month.

A very heavy storm passed through Yaboola district last Sunday in the nature of a cyclone, breaking off and uprooting trees and destroying corn but injured no one. It came from across the Blue Ridge and first struck in a field near the foot of the mountain. Had it not divided there is no telling the damage it would have done. It passed on through Wahoo district but was some lighter.

Just a few days before the election one of the candidates asked a certain person over in Wahoo district to register so he could vote. "Is it any harm?" enquired the voter. "No!" replied the candidate. "Write your name." "Well, I don't know about it. I belong to the church. Let me see my daddy first" was the response and the fellow went away in search of the old man. This man has a family who are expected to be enlightened by him.

As yet the city council have made no arrangements with the Consolidated Co. to light up the city. The lamps are all up and have been for weeks and a sample of lights have been given occasionally whenever it suits them to do so, but we don't suppose it will occur any more unless some distinguished visitor comes in for they have shut down all Sunday work and will not agree to furnish light unless the people will shut their eyes on the law and let them operate their mill too. Dahlonega is an old town and has gotten along very well without electric lights so far.

Strange things will never cease. Marshal Harrison gave a fellow lodging in the calaboose Saturday night who said that he had two fathers. His first appearance noticed was at the parsonage where he called to change shirts and to get something to eat. He was barefooted ragged and dirty and presented an ugly appearance. While the servant was giving him something to eat Mrs. Cook sent for the marshal. He said that he had been in Gainesville jail about two weeks for deserting his parents and was released when he reached 21. After being given lodging the marshal told him next morning to go back where he could be cared for by his two fathers.

On the day of the primary election down below Auraria, the road hands instead of coming to the election cut down a bee tree which had been discovered and after feasting on the honey passed off the time in wrestling—all taking a hand—even Bill Bryson and Geo. Clements, the former 60 and the latter 63, resulting in Bryson throwing Clements. This suited them better than being in politics, for it is said that some wine and brandy were on hand at the polls, most of them and something more than a wrestle might have taken place, causing several skinned noses and a doctor bill and a law suit.

The Wimpy store house, another old landmark on the square has been torn down.

If you wish to sell your chickens quick and at a good price bring them to Dahlonega.

You will find a correct tabulated statement of the democratic primary on the first page. File the paper away for future reference.

If you wish to run for an office send or bring in \$8. This is our price on up to the election and you won't save a nickel by waiting. So come right along.

Rev. Mr. Peugh lost his pocket book between Porter Springs and Gainesville on Wednesday containing money and other valuables. It was made of Morocco. The finder will be rewarded by leaving it with Joseph Allen, Dahlonega, Ga.

You will find the names of all persons in the grand jury box of Lumpkin county as drawn by the revisors on first page. We will commence publishing the names of those in the special jury box next week which will be continued until the list is completed, showing the public the revisors judgment of uprightness and intelligence.

W. H. Parks, who has filled the pulpit at the Dahlonega Baptist church for the last two years to the satisfaction of all its members, left for Gillsville last week not to return any more to the regret of his many friends here, for he performed his duties well and always visited the sick and ministered to their needs, causing everybody to love and respect him.

William Douglass, a young man of about twenty-nine summers died at the residence of Robert Marlow on Friday last at about 10 o'clock after an illness of 39 days, who was born in Illinois and came to this country while quite young. His parents died long years ago and are buried in that state. He had no relatives in this country except probably an aunt. For some time the deceased made his home at Mr. Marlow's who treated him in the kindest manner and during his entire sickness he received all the attention that could possibly be given him by the entire family. His remains were laid to rest in Mount Zion cemetery the following day.

Ollie Jones, an imitation of a human being, for the second time has deserted his wife in Dahlonega and we trust that he has gone to some place where he will meet his just reward and land in the possession of the devil before he succeeds in winning the affections of another young girl. Really hell is to go to a place for such a thing. Shortly after his marriage he left one day to be back the next and was away several weeks before his wife ever heard of him. Fool like the wife after some months agreed to go and live with him at Ducktown, Tenn. After remaining there until April or May they moved back to Dahlonega where they apparently lived happily together until last Wednesday night, and then not a cross word passed between them. After supper he carried her out to one of her lady friends to remain a little while until he returned from town. The wife waited and looked for the second until eleven o'clock and went home, little dreaming that he had gone and left her again. The next morning after arising she discovered that he had returned that night and carried away his clothes and everything he possessed, and is gone and no one knows where. A few days previous he registered, swearing that he had been a citizen of the state twelve months, when he had only been back three or four months. An imitation of a man who deserts his wife in the needs of time and swears a lie to get to vote in a primary is too mean, low down and trifling for the buzzards to eat and will be looked after next court if there is any law to punish such worthless inhuman beings. This should be a warning to girls in paying any attention to strangers.

Opening of the Public School.

The school system enters upon its second year's work with increased facilities in every department on Tuesday, Sept. 4. In the school for white pupils, two competent new teachers have been elected, making an addition of one to the teaching force, another grade has been added, and new features of acknowledged educational value and interest will be introduced into the course of study in each grade. The teachers of both schools are in earnest, in love with their work, and conscientiously devoted to the development in mind and character of each pupil in accordance with the true ideals of manhood and womanhood.

The seventh grade recently added, offers to all pupils prepared to enter it, an opportunity to further prosecute the fundamental English studies, with the addition of elementary courses in practical science, designed more fully to fit the pupil—whether boy or girl—for meeting the practical everyday requirements of life, and for giving him a fuller capacity for complete living in his—wherever. This grade is not intended to be directly preparatory to a collegiate course, as pupils are well equipped in the sixth grade for entering the Sub-Freshman "B" class of the State institution in our city; but it does hold out to those pupils who cannot, or do not intend, to take a collegiate course, or who, while intending to go to college, feel that they can profitably spend another year in the public schools, the opportunity of adding the advantages of another year's work to their equipment for the practical duties of life, or of preparing themselves even more fully for profiting by a thorough course at college. The cost of additional books for this grade will be slight.

The principal will be found at the school building on Monday, Sept. 3, for the purpose of classification, and issuing admission tickets to new pupils; that is, all who did not attend school in Dahlonega last year. Tickets will be issued to white pupils between the hours of 8 and 11 a. m., to colored pupils between 1 and 3 p. m. Each pupil on entering school, will be required to present his ticket or certificate of promotion, if he received one at the close of school. This applies to old pupils as well as to those just entering. By this arrangement no time will be lost and a full day's work may be done on the first day of school.

A. H. Stargel announces himself as a candidate for tax collector this week. Mr. Stargel is known to be a good clever gentleman who would faithfully perform the duties of such office should the voters see proper to elect him.

The present council want Clarksville street broader which takes in all the porches from Meaders & Sons store to Editor Woodwards office and all the front yards at Stephen Rice and Ben Andersons residences to the old Hand canal where the line takes an easterly direction cutting off a portion of Rices blacksmith shop. A portion of the parties have been notified to move their fences within twenty days otherwise it would be done by the council. Attorneys have been employed by the defendants and no doubt a law suit and a delay will be the result.

Laura Lee, the little eight year old girl of Mr. Wm. Ricketts died last Wednesday afternoon from inflammation of the stomach after an illness of only three or four days. She suffered great agony. Nearly every breath she called on her pa saying: "Pa, can't you help me? Can't you do something for me?" which caused it to be one of the saddest occasions ever witnessed in Dahlonega. Dr. Whitehead did all he could to ease her but was powerless until the cold hand of death arrived relieving her of all pain and suffering here below. We deeply sympathize with the bereaved parents.

All Sunday Work to Cease at the Hand Mine.

Our little notice in last weeks issue, calling attention to the fact that the Sunday work, which was going on at the Hand mine, was an open violation of law, caused some of the Consolidated men and managers to get a little miffed at us, at the same time issuing an order that all Sunday work at the mines would cease until further notice.

We did this simply to save trouble. Men who refused to work on Sunday lost their jobs and those that worked laid themselves liable to be prosecuted. It is true that some of the superintendents told the hands that the company would stand between them and the law but the code of Georgia does not allow this—every tub stands on its own bottom. No company or individual can take the place of a criminal in Georgia. A criminal fine can be paid by another but he has to serve out his own time under the law either in prison or in the chain gang, the judge having a right to not only punish criminals in this manner for Sunday work unnecessary but also to "tack on" a fine. Feeling satisfied that many laborers were unaware of this fact we felt it our duty to tell them about it and did so without feeling any ways timid in doing it, for this company have no more right to run their mill on Sunday than the farmer has to hire a whole lot of hands and run his plows. Not as much so as they did after the wet season ceased in June and were all behind with their crops, for the making of corn and cotton can only be done at a certain season while gold digging can be done the whole year round—nights not excepted—giving the miner an advantage over the farmer. Had the farmers been permitted to work only a few Sundays along then it would have added hundreds of bales of cotton and thousands of bushels of corn to these crops in Georgia this year alone, but by complying with the law all this is a clear loss. On Sundays down at the Hand they have been repairing the crusher and other machinery getting all ready for Monday. Suppose the farmer was to mend his harness, repair his wagon or sharpen his plow for Mondays work? Under the law he would go to the chain gang, more especially if he was poor. The law provides for certain Sunday work and the Consolidated Co. can take an opportunity of the same if they wish. It may be that they will lose a thousand dollars for each Sunday they do not comply with laws of Georgia but they must consider that there are numerous other businesses where men could add much more to their riches could they operate on Sunday, but the law says they must not do it. It may seem a hardship on them but it is law and we are not responsible for it. In calling attention to this matter we did not mean to offend any one, but where a person who out of reason does become offended at us we do not care.

Our reason for saying that the Sunday work would cease at the Hand is this: Mr. Scott, called us last Monday who, we suppose spoke by authority of the company and asked us if we had any objections to a watchman being kept at the Hand. We told him no, the law allowed certain Sunday work to be done. Then he stated that all Sunday work would cease—that they would not start up the chlorination plant at all, "just to accommodate our newspaper men." Now as to this they can do as they please and even stop all operations if they wish.

Here is the law referred to—we didn't make it: Penal Code Sec. 422. Any person who shall pursue his business or the work of ordinary calling, on the Lord's day, works of necessity or charity only excepted, shall be guilty of a misdemeanor. This is the penalty. A fine not to exceed one thousand dollars, imprisonment not to exceed six months, to work in the chain gang not exceeding twelve months and any or more of these punishments may be ordered in the discretion of the judge.

Peas Were Boiled in New Tin.

Tifton, Ga., August 5.—Details of the tragedy near Irwinville, Irwin county, in which two children lost their lives, and their parents are at death's door have been received.

It seems Lewis Connors, a farmer living near Irwinville, had been in very feeble health for some time and his attending physician would only allow him to eat very light diet. Friday he had his wife to cook some pea soup for him, and the soup was boiled in a new tin pail. Mr. Connors tried to eat some of it, but didn't like its taste, and set the vessel to one side. A few minutes later a neighbor came after Mr. Connors to carry him to his home for the night thinking a change might do the sick man good. Mr. Connors went off with him, and the pea soup was forgotten until supper time when Mrs. Connors and the children ate of it, but not heartily, as there was only a small quantity. An hour or so later, the oldest child, a little boy, was taken violently ill, and a physician was sent for, but although he lived only a mile distant, the boy died before Dr. Julian could arrive. Seeing the patient was dead, the doctor returned home but before he had unhitched his horse, a messenger arrived post haste, saying another of the children was very ill. He arrived before the little sufferer, another boy, died, but was too late to render any assistance. While he was there, Mrs. Connors and another child were taken violently ill, but by hard work their lives were saved.

There is little doubt that the tragedy was caused from poison in the tin vessel, in which the peas were cooked and allowed to cool.

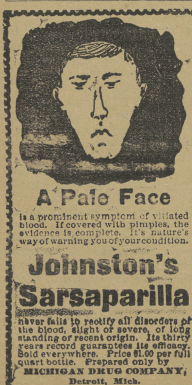

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. I saved my little daughter's life. I am anxious for ever mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. BERNICK, Liberty, R. I. For sale by F. W. Hall M.D. Co.

FINE FRUIT TREES, GAINESVILLE NURSERY, Gainesville, Ga.

There seems to be a big race war in New York caused by a negro in that city brutally murdering a policeman. It required several hundred policemen to prevent a negro from being hung to a lamp post afterwards. The excitement is great.

The tax returns from 115 counties in Georgia show an increase of \$11,117,173, and what pleases us old Lumpkin stands in the increase column. We are sorry to see our sister county White in the decrease column among twenty other counties. Lumpkin county's increase is \$756,294 being \$22,807 more than Hall county increased with all her railroads and cotton factories.

A Pale Face
Is a prominent symptom of vitiated blood. Recovered with Sarsaparilla. It cures all skin diseases, restores the system, and gives the face a healthy glow.

Johnston's Sarsaparilla
Never fails in reality all disorders of the blood, skin, or system. Its thirty years record guarantees its efficacy. Sold everywhere. Price 50¢ per full quart bottle. Prepared only by
MICHAEL DRUG COMPANY,
Detroit, Mich.

For sale by The Frank W. Hall M.D. Co., Dahlonega, Ga.

A Tattaloni county farmer who has been experimenting with tobacco growing claims that he will get \$540 from a three acre crop this year, and that it has not cost him over \$75 to grow it. Mr. Oliver claims that he has reduced the cost of growing tobacco by keeping about 23 turkeys to the acre, which he worked, and that the turkeys sell for enough to very near pay the cost of cultivation.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by F. W. Hall M.D. Co.

THE Crown Mountain Gold Mining & Milling Co.

The Crown Mountain properties are situated in the very heart of the Georgia gold belt and is in the radiating center of all the leading gold veins of the Dahlonega district. They embrace what is believed to be the mother lode of the Appalachian Range.

The extensive and rich ore bodies in sight upon these properties assure long continued mining operations and the indisputable guarantee of the permanent and increasing value of the stock of "The Crown Mountain Co."

The projectors of this company were the first to revive the mining interest in this district in 1896. After three years of careful and exhaustive examination of all the mines of the district of reputation as gold producers, and they had the choice of all, they selected the Crown Mountain combination as the ideal gold mine of the district which would yield or produce the most gold with the least expense. This opinion is shown by all the mining engineers, mining experts, miners and men in the district who are familiar with the properties. As an evidence of this we heretofore state that more of the citizens of the town of Dahlonega and vicinity have taken stock in this company than have in all the other companies combined that have organized in this district.

The company is to be managed by practical business men—who have given much of their time to mining and mining operations, and always with unvarying success.

The present directors are for the most part composed of men who have had much experience in the mining enterprises, and under its efficient and economical management, and by reason of a visible gold supply that is practically inexhaustible, an investment in the stock of this company is undoubtedly safe.

The capitalization of the company is not commensurate with the visible productiveness of the properties and is meagre compared with the capitalization of other justly celebrated mines in the district, but the management believe it will be able to make the stock worth above par.

We invite all prospective investors to make a personal inspection of the mines. We also invite them to examine all the other mines in the district—compare the quality and quantity of the ore and the facilities for economically treating the same. We have no fears of where the choice will fall.

Until further notice of advance prices, the stock of this company will be sold at the minimum rate of 50.00 per share. For further information apply to J. F. or J. H. Moore, Dahlonega, Ga., or Donovin & McCabe, 10 & 12 West Spring Street, Columbus, Ohio, or Gen. Warner, Marietta, Ohio.

\$500 REWARD.
We will pay the above reward for any case of liver complaint, Dyspepsia, Sick Headache, Indigestion, Constipation or Coliciveness we cannot cure with Laveria, the Up-to-date Little Liver Pill when the directions are strictly complied with. They are purely vegetable and never fail to give satisfaction. See boxes contain 100 pills, 100 boxes contain 40 pills, 50 boxes contain 15 pills. Beware of substitutions and imitations. Sent by mail. Stamps taken. NERVITA MEDICAL CO., Cor. Clinton and Jackson Streets, Chicago, Ill. For sale by G. H. Jones, Drug gist, Dahlonega, Ga. July 20 '95

ANNOUNCEMENTS.
FOR THE LEGISLATURE.
We are authorized to announce the name of V. A. Higgins as a candidate to represent Lumpkin county in the next legislature subject to the voters at the general election.

FOR TREASURER.
Thanking the people of Lumpkin county for past favors I announce myself for re-election to the office of county treasurer subject to the October election. Promising you if elected to discharge the duties of such office to the best of my ability.
B. F. ANDERSON.

FOR CLERK.
Upon the solicitation of many good citizens throughout this county I respectfully announce myself a candidate for the office of Clerk Superior Court and shall feel very grateful to the voters of the county for any assistance they will give me in the general election next October. If elected I promise to give the duty of the office my prompt and careful attention.
A. W. CAIN.

FOR TAX COLLECTOR.
We are authorized to announce the name of C. W. Denson as a candidate for tax collector of Lumpkin county at the ensuing election in October.

FOR SHERIFF.
I respectfully announce myself as a candidate for sheriff, promising you if elected that I will perform the duties of such office to the best of my ability.
Respectfully,
D. S. FLETCHER.

I respectfully announce myself a candidate for sheriff of Lumpkin county, and I solicit the support of the voters of said county at the general election, to be held on the first Wednesday in October next.
LEWIS M. WELLS.

To the Voters of Lumpkin County.
I respectfully announce myself as a candidate for sheriff and ask the support of the voters at the general election.
F. R. LOWERY.

FOR ORDINARY.
I respectfully announce myself as a candidate for the office of ordinary for Lumpkin county, and ask the support of the voters of said county at the general election to be held on the first Wednesday in October next.
June 5, 1900. **G. G. EVANS.**

Feeling thankful to my friends for their support in the past I now announce myself as a candidate for the election to the office of ordinary and solicit a continuance of their support in the election which comes off on the first Wednesday in October. I desire the approval of my administration at the ballot box.
W. H. C. TATE.

FOR CORONER.
The friends of John W. Satterfield announce him as a candidate for Coroner trusting that he will receive the support of all.

Machinery
If You are interested in Gold Mining write to Fraser & Chalmers, 1305, 12th Street, Chicago, Illinois, for catalogue of
Stamp and Huntington Mills.
Fraser Vanners, Hoisting and other machinery. To obtain lowest prices examine the catalogue and write Fraser & Chalmers describing the machinery needed, and your inquiry will have prompt attention.

Diseases of the Blood and Nerves.
No one need suffer with neuritis. This disease is quickly and permanently cured by Brown's Iron Bitters. Every disease of the blood, nerves and stomach, chronic or otherwise, succumbs to Brown's Iron Bitters. BARBER SHOP.

WHEN wanting a nice clean shave, hair cut or shampoo call on Hunter & Underwood. First class barber shop in every respect next door to McGee's store on main street where they will be found ready to wait on you at any time

NOTICE.

All who are indebted to the firm of W. H. Smith & Bro., Porter Springs, Ga., either by note or account are hereby notified to come forward, make prompt and full settlement at once as the latter sells out to his brother who will continue to do business at Porter Springs and the younger will make his place of business in Dahlonega, which compels us to make full settlement on or before Nov. 1st. Settle up and save cost.

W. H. SMITH & BRO.

LETTERS OF DISMISSAL.

Georgia, Lumpkin County.
A. Rudolph, of Hall county, Ga., as executor of the will of W. A. Burdette, late of said Lumpkin county deceased, and as testamentary guardian of Thomas E. Burdette, Mary E. Williams (formerly Mary E. Burdette) and James W. Burdette, all of said legacies being now twenty-one years of age, having filed his petition for discharge from his said trust, this is to give all persons concerned to show cause if any they can, on or before the first Monday in October 1900, why letters of dismissal should not be granted to said Rudolph as prayed for. This 2nd day of July, 1900.

W. H. C. TATE, Ordinary.

The One Day Cold Cure.
For cold in the head and sore throat use Kermet's Chocolate Laxative Quinine, the "One Day Cold Cure."

Mr. Pickett Left.

Rev. Thad Pickett, the evangelist from the mountain of north Georgia, has left Atlanta. He did not fold his tent and steal away. Instead he sold his tent to J. Lawrence Turner, another evangelist, and rode out of town on a passenger train, headed for Cartersville. The evangelist since he has been holding forth in Atlanta has had a lively time of it. He came here at the request of the Fifth Baptist church to assist in conducting a revival.

He had not preached more than four or five sermons before he was called down by his congregation, who announced that if the Rev. Thad Pickett continued to occupy the pulpit of the church the congregation would vacate the pews. The result was that he was notified that he would no longer be expected to assist in the work of souls saving so far as the congregation of the Fifth Baptist was concerned. But he did not stop here, and gathering together a few followers he continued to hold services at irregular period in the church until he was locked out of the building. Then he secured a tent and started out as a free lance, holding revival services on his own account. This has been going on for a week or more with only moderate success. The scheme did not pan out as well as he expected, and he at last concluded to leave the city, selling out his religious plant to J. Lawrence Turner, who will succeed him. Mr. Turner says that he will preach the gospel and stick to the teaching of the Bible.—Correspondent Macon Telegraph.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Many Different Trees.

DAHLONEGA, GA.,
Aug. 20, 19.

Ed. Nugget:

We appreciate the favor in giving place to our communication of the 3rd inst. "Result of Ankylosis and Dwarfed Organs of the Human Body."

Now, we ask you again to favor us by inserting the different names of the trees along the sidewalk in front of our house from the water culvert at the bridge to the hillside in front of the college. I say the bridge here referred to is the foot bridge between the court house and the college erected in 1884 by the town council, the posts and lumber for the bridge was furnished by Col. Hand and myself and has been much improved this year by the town authorities, and we trust the town may be able during the next ten years to build a substantial stone wall along the lower margin of this bridge.

Here are the names of the trees that we agreed upon by my wife

J. F. MOORE

Still Leads in

Dry Goods, Hats, Shoes, Hardware, Etc.

and myself about the year 1882; 37 in number and 19 varieties, viz: Sweet Gum, Pecan, Mulberry, Sycamore, Mimosa, Lindon, Maple, Sugar Maple, Sevenbark, Dogwood, Ironwood, Poplar, Silver Poplar, Aspin, Beech, English Walnut, Black Walnut, Balm in Gilead, White Pine and Spruce Pine.
N. F. HOWARD,

Chinese War Notes.

Restlessness is increasing in South China.

The German army will use American horses in China.

Canton officials are onlisting Chinese at \$9 a month, twice the usual amount.

Russian troops have captured the town of Sakhalin, on the Amur River.

Japanese newspapers denounce Emperor William's vindictiveness toward China.

Filthy camps of some foreign troops at Tien-Tsin are proving a menace to health.

A third brigade has been ordered to China from India, about 6000 men being included.

A junk has been seized at Canton with seventy rifles and 10,000 cartridges on board.

The American gunboat Princeton has sailed from Amoy for Shanghai to protect Americans.

Admiral Seymour has forced the Viceroy of Nankin to give him an audience, after twice refusing.

Army officers seeking horses in the United States for the American and German cavalry have difficulty in getting animals.

One hundred Chinese reformers have sailed from Tancouber, B. C., for Macao to consider raising an army to assist the allies.

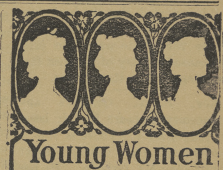

British Consul Pfaizer and the foreign community at Chung-hing have left for the coast, after being warned by the Government.

United States Consul Fowler, at Chee-Foo, China, has received the original of the famous Conger dispatch proving it to be genuine.

The Czar has raised all commercial tariffs except those provided for by treaty to produce war money.

The German mission at Namon, China, has been destroyed, and Wuchow is no longer safe for foreigners.

Railroad construction has been extended 300 miles south of the City of Mexico, and Pullman sleepers run regularly on all night trains. Feeders are being built into the mountain regions.

Young Women

The entry into womanhood is a critical time for a girl. Little menstrual disorders started at that time soon grow into fatal complications. That female troubles are killing graveyards prove this. Wine of Cardui establishes a painless and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Many women, young and old, owe their lives to Wine of Cardui. There is nothing like it to give women freedom from pain and to fit young women for every duty of life. \$1.00 bottles at druggists.

Miss Della M. Strayer, Tully, Kans. "I have suffered untold pain at menstrual periods for a long time, was nervous, had no appetite, and lost interest in everything, in fact was miserable. I have taken four bottles of Wine of Cardui, with Thedford's Black-Draught, when needed, and today I am entirely cured. I cannot express the thanks I feel for what you have done for me."

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chicago Medicine Company, Chicago, Ill., U.S.A.

Democratic Ticket.

We are authorized to announce the following ticket which was elected at the democratic primary of Lumpkin county held on the 15th day of August to be supported at the ensuing election in October:

For State Senator, 32nd District:
W. H. McAFEE,
For House of Representative:
G. D. BRUCE.

For Ordinary:
JOHN HUFF.
For Sheriff:
JAMES M. DAVIS.
For Clerk Superior Court:
JOHN H. MOORE.
For Tax Receiver:
C. W. STARGEL.
For Tax Collector:
P. W. WINIFY.
For County Treasurer:
J. B. BROWN.
For County Surveyor:
V. R. HICKS.
For Coroner:
G. McGUIRE.

THE NUGGET.

DAHLONEGA, AUGUST 31, 1900.

Entered at the Postoffice at Dahlonega, Ga. P. O. as Second Class Matter.

Bryan has accepted the nomination of the populist party.

Mrs. Elizabeth Hutchinson was poisoned in Atlanta one day last week by eating ice cream.

W. W. McAfee has been awarded the contract of building the new court house in Fannin county for \$30,000.

Both the populists and democrats of White county have met in convention, but neither one nominated any candidates.

Judge Lynch came near getting in his work in Chicago the other day, caused by a negro snatching a pocket book from a lady.

There are nine murderers in Fulton county jail at this time, several of them from other counties sent there for safe keeping.

E. C. Powers committed suicide at Voldosta, Ga., the other day by sticking his head into a tub of water. Bad health was the cause.

One of the greatest revivals ever known in upper Georgia has just closed at Liberty church in Dawson county, resulting in 81 joining the church.

The state tax rate has been slightly decreased this year. And we may expect a reduction in the rate in Lumpkin county also. So says Judge Tate.

It is reported that the heat was so excessive down at Owsley, Ga., on the 28th as to warp the rails and caused a delay of the west fast mail some two or three hours.

Rev. S. M. Grizzle's announcement appears in this issue for tax collector. There is not a resident of the county better known than Mr. Grizzle. He has served as tax receiver and promises to use every effort to please if elected.

We are told that it was a mistake about the republicans having a caucus in Dahlonega the other night. Quite a number of parties had only gathered together in unity around a quart of new brandy to test its strength.

Aug. 15th, in Lumpkin County Hon. W. H. McAfee was nominated for senator from this Dist. Mr. McAfee is an old citizen of White County, and his many friends here will be pleased to learn of his success in his aspirations to serve his county and state as their senator from the counties of Dawson, Lumpkin and White. Let every good Democrat in the county vote for McAfee in Oct. and do an honor for themselves and for their county.—Cleveland Courier.

The story of a horrible double murder, in Gordon county, has been going the rounds for some days. Whether there is any truth in it or not, we cannot say, but in substance, it is about this: While thrashing wheat, a boy, who was cutting binds, made a mislick and cut a finger of the feeder, who picked up the boy and fed him through the thrasher. The brother of the boy was near by and stuck an iron pitchfork through the feeder killing him almost instantly. The boy is said to have been ground to pieces in the machine.—Jasper Republican.

The jury revisors of Hall county will have to do their work over. As previously stated in The Cracker they may not have to revise the jury list. They virtually completed their work and adjourned for two days to allow the clerk of the Superior court to copy the list. When they convened again this week they ascertained that an act was passed by the last legislature forbidding any county officer from serving as a jury revisor and as one of their number, Mr. John A. Smith, was elected a member of the Board of Roads and Revenues they saw that they would have to do their work over without the assistance of Mr. Smith.—Georgia Cracker.

Wants to Know What Mr. Castleberry Did.

Mr. Editor:—The time has come when the citizens of Lumpkin county should send her wisest men to the legislature, and more especially when we have men in the field asking our support who have made good records, having served us faithfully and intelligently. Take W. H. McAfee who is now a candidate for the Senate against J. F. Castleberry. Really there is no comparison between the two as to popularity and ability. Mr. Castleberry is a good clever man but knows but little about legislative matters for he has been tried and the records will show that my assertion is true—he is too dull. If he did anything of importance I have not been able to find any record of it. Mr. McAfee has been there more than once and was always wide awake and ready to work for his constituents whenever an opportunity was offered. This is the kind of a man we want there now—one who is equal to the emergency when having to meet some of the wisest men of Georgia in discussing measures. It is no place for drones. If any are sent let them go from some other county besides Lumpkin. Mr. McAfee is the choice of the people in the recent democratic primary, and when the election rolls round let every democrat go out and give him such a vote as to put an end to radicalism and independentism in this county.

VOTER.

The New York Evening Post, referring editorially to the recent race riot in its own city, very frankly and freely admits what has been claimed in south all along—that if the north were as thickly populated with negroes as is the south, there would be as much trouble over the relations existing between the races as here. The Post speaking of the New York riot, says, "From time to time New York, Ohio, and other northern states furnish evidence in support of this theory. Last night's occurrence is a case in point. It was the recent New Orleans riot over again, only on a smaller scale as befitted the slighter provocation. It was a discredit to the city, and New York would undoubtedly be disgraced by far worse race riots if the negro element were as large a factor in the population as it is in New Orleans."

The Waycross Journal warns its readers against a mining company that advertises in many country papers offering 173 per cent dividends on investments in the stock. This concern tried to score space in the Observer to further its humbuggery, but it was promptly turned down. It seems strange that any one should be so simple and ignorant as to allow themselves taken in by these gold brick schemes, yet it is too frequently the case.—Moultrie Observer. The Nugget had a request from this company(?) but didn't accept it. There is too much gold in Lumpkin county for us to go off "mining."

The following telegram from Palestine, Texas, explained itself: Former Justice of the Peace Joseph Wilkerson, the alleged leader of the mob that lynched the three Humphries in Henderson county in May, 1890, and J. T. Johns, Sam Hall, and John F. Gaddis, the remaining four defendants, to-day pleaded guilty to murder in the first degree and each received a life sentence in the penitentiary. This action disposes of all the Humphries lynching cases, eight in number. Each defendant received a life sentence. John F. Gaddis was formerly of Dahlonega.

Capt. W. H. McAfee was nominated for Senator in the Democratic primary in Lumpkin county 15th inst. to represent the 32nd senatorial district, composed of the counties of Dawson, Lumpkin and White. Capt. McAfee is well known over the district, has a host of friends, and if he is elected will make an able and worthy senator. He will be opposed by Hon. J. F. Castleberry, independent.—Dawsonville Advertiser.

Mining Notes.

We understand that about thirty of the members of the Consolidated Co., residing in the north will be in Dahlonega about next Tuesday to look after their mining interests.

The tube on the Wimpy Mill road burst last Tuesday causing the Hand mill to stop, and everything else down there operated by this gigantic water power. Every workman necessary was called to the place and in the course of a few hours the repairs were made good and things moving along as if nothing had ever occurred.

For some time men have been engaged in trying to strike the main vein at the Otausa mine in Hall county which is believed to be very rich. Several valuable gold bearing rocks have been found on the property, some of them recently. The mine belongs to Atlanta gentlemen. A Lumpkin county miner has been offered \$1,000 to find the vein.

Men are daily busy hunting more veins on the Crow Mountain property and their efforts are not fruitless for the mountain is full of them and those that are good. A recent assay of the pay streak averaged \$120 per ton. The slate on either side being worth \$60 per ton, heavy sulphuretted. All other work in connection with the mine is progressing as rapidly as possible.

Messrs. Birch Bros., engaged in mining the bed of the Chestatee river near New Bridge, spent an hour or so in our office last Saturday, who reported that they are still well pleased with the results of their labor, clean ups being splendid. Their electric plant was crippled the other night causing night work to suspend for a short time until the necessary repairs can be made.

In referring to Robt. Poston's mining operations last week we stated that it was a placer mine, which is a mistake. It is a vein mine and one which we are informed is worth \$25 to the pan. This vein is on the celebrated Calhoun property which was purchased by Mr. Whorton some time ago from the N. G. A. College. [Such rich strikes as this is no surprise to the natives here who know the property.]

At the recent Mining Congress held at Milwaukee, Wis., the following officers of the International Mining Congress were elected for the ensuing year: President, Hon. L. Bradford Prince, of New Mexico; Vice-President, Hon. A. P. Swineford, Alaska; Secretary, Irwin Mohone, Denver, Col.; Treasurer, Mrs. E. C. Atwood, Denver, Col.; Executive Committee, the above officers and J. W. Adams, Dahlonega, Ga.; Judge P. A. Orton, Darlington, Wis.; Mrs. Ella Knowles Haskell, Helena, Mont.

The Consolidated Co. are still moving along, employing new hands and increasing their work. Plenty of ore is taken out as to cause no delay in the mill. It runs continuously both day and night, beginning at 12 m. Sunday night and stopping at 12 m. Saturday night. One of the big boilers at the Pigeon Roost was moved to Shaft No. 2 at the Hand last week and the other boiler was carried across the Blue Ridge in the county of Union this week to be used in furnishing power to cut the big 1,500 foot tunnel through the mountain to supply more water at the Hand.

Dawson county is also beginning to wake up with her mining industry after many years of almost silence. The Palmur mine has recently been traded to some Atlanta gentlemen formerly northerners who have the necessary pumps and boilers on the ground for the operation of shafts, etc., and thirty men were put to work this week. A sufficient amount of development work has been done on the property to cause the managers to believe that it is valuable as a gold mine and justify them in making an outlay for this machinery for the purpose of testing it more

thoroughly deeper down so as to determine what size mill to build. Our sister county Union is on the eve of a big mining boom. Articles of incorporation of the North Georgia Consolidated Gold Mining Company, with a capital stock of \$500,000 has been filed with the clerk of the superior court of that county with the following named gentlemen as incorporators: A. A. Brown, of Waverly, Me.; H. W. Leyons, of Chattanooga, Tenn.; J. V. Lance, of Ivy Log, Ga.; J. H. Brown, of Chicago, Ill., and W. E. Candler, of Blairsville, Ga. The object of this company is to develop the property that has been acquired by them, consisting of 640 acres of rich gold lands. It has been demonstrated that gold in large quantities exists on their property. The company proposes to develop the property at once, and as soon as the organization is perfected thoroughly, will take steps to that end.

Blocks fresh punch peanuts at J. E. Tates.

Mrs. D. M. Edwards, of Villa Rica, is here on a visit to friends.

James Lingerfelt was bound over Wednesday for being caught running a blockade still some time ago.

Mrs. H. D. Jaquish, of Gainesville, while in Dahlonega Wednesday paid the NUGGET office a pleasant visit.

J. N. Satterfield announces himself as a candidate for tax receiver this week. Mr. Satterfield is a good clever man who will endeavor to discharge his duties if elected.

Since publishing announcements on fourth page of this issue L. B. Walker has decided to withdraw from the tax receivers office. He says because he voted for a relative in the democratic primary he was pulled out of the race by his republican friends.

Mayor Woodward, of Atlanta, seems to continue being a good patron of the bar rooms of that city, as he was out in public again last week drunker than ever before while on exhibition. This time he appeared in the council room and was so troublesome that he had to be called to order several times and at last escorted to one side by the marshal.

Don't Stop

taking Scott's Emulsion because it's warm weather. Keep taking it until you are cured.

It will heal your lungs and give you rich blood in summer as in winter. It's cod liver oil made easy.

50c. and \$1. All druggists.

At the solicitation of many friends I announce myself as a candidate for tax receiver and ask the support of all promising if elected to perform the duties of such office to the best of my ability.

J. N. SATTERFIELD.

At the solicitation of many friends in various portions of the county I have determined to make the race for tax collector promising if elected to use every effort to do my duty, trusting that you will give me your hearty support on the day of the election. I am Very Respectfully,
S. M. GRIZZLE

THE NUGGET.

DAYLONEGA, AUGUST 31, 1900.

H. D. Gurley will go into the mercantile business again right away.

Mrs. A. Thibson, of Delaware, O., arrived in Dahlonega last Saturday.

File the papers away containing the jury list and it will do for future reference.

We understand that the Consolidated Co's big hotel will not be opened out this year.

Quite a crowd of young people went up to Porter Springs from Dahlonega Friday night to attend a dance.

J. W. Adams has brought his wife to Dahlonega and they now occupy rooms at the Consolidated Co's new hotel.

Our August list of subscribers, which will appear in next week's issue will show you how well people like to read the Nugget.

Mr. Floyd Anderson, Jr., was wedded last Sunday to Miss Lizzie, daughter of Mrs. Ann Anderson.

FOR SALE.—Nearly new seven room house on Murray's Heights. Lot 210x210 feet. Now paying twelve per cent. on price asked.

O. J. LILLY.

A certain citizen who used to be a jury revisor was left entirely off of the last list. This shows what a change can take place even in a man during a short period of time.

Mrs. Thomas of Gainesville, wife of Rev. A. C. Thomas, who used to reside in Dahlonega, is up on a visit, the guest of Mr. and Mrs. B. K. Meaders, accompanied by her daughters, Miss Gussie and Miss Louisa and Master Willie.

When you visit Dahlonega before returning home secure a photo of the Consolidated Company's big stamp mill. For sale at Davidson's art gallery on College st. Perfect gems of art at 35 and 40c. each.

John Barker was given admittance for a short time in the calaboose Saturday night because he was a little too boisterous. John had been driving a six mule team and forgot himself and talked most too loud. The man with a keg on the hill caused all this.

Marshal Harbison has done much street work since he has been in office which is of great benefit to those owning vehicles and is a nice thing even for footmen. Every one likes good streets, roads and sidewalks; besides good roads are very important and a great benefit to any country.

A gentleman, who is not a subscriber to any paper came to town the other day and called at the Burnside house thinking that the postoffice was there, when it had been moved to the court house many months ago. This shows how far people are behind who do not take their home papers.

The fall session of the N. G. A. College begins next week which has a widespread reputation as being one of the best institutions in the south, having accomplished the greatest good to the greatest number of any other college since being founded. It has one of the best corps of teachers that can be obtained anywhere. So send your sons and daughters to Dahlonega if you desire them to obtain a collegiate education free of charge.

Mr. Henley leaves for Decatur next week where he has purchased a splendid farm and will hereafter follow the dairy and nursery businesses instead of mercantile having already purchased about thirty cows which shows that he proposes to run it on a large scale. Our business and other relations with Mr. Henley since he has been in Dahlonega have been very pleasant. He is very clever and accommodating and we wish him unbounded success in his new enterprise.

Col. Farrow came down from Porter last Tuesday and spent a few hours in the city.

Two more stores will be added in Dahlonega within the next few weeks which shows that her business is rapidly increasing.

Gainesville was well represented in Dahlonega last Tuesday. Being Prof. Van Hoose and lady, Mr. Jewell, Judge Gaston and Deputy Collector Ben Landers.

Miss Mary Johnson, daughter of H. P. Johnson, was first with the Nugget in the photo contest week before last. Samples of this beautiful scroll work can be seen at Davidson studio on college street.

J. H. McKee is putting the Thomas store house in good shape so as to move into it right away. He has also purchased a portion of the "Boy" Thomas lot opposite the old Burnside stable lot where he will erect a new store house later on.

At a meeting of the Board of Trustees of the N. G. A. College the other day it was decided to let the students occupying the dormitory hereafter furnish their own rooms, being most too expensive for the college to supply the place with furniture for the boys to break up while playing.

Last Saturday night as Wilkes Loggins was returning to his home at the Briar Patch from the mines he discovered what he believed to be a beautiful house cat by the side of the road which he decided to catch and did so, but it proved to be another kind of a cat and Wilkes is the loser of a suit of clothes.

The city council needs two scavenger carts at this season of the year so that one can be sent round every morning to clean up the melon vines, rotten fruit, etc., which accumulates during the day. As it is they are not looked after only once a week, being too much trouble to clean up the present cart for this work every day. This is very important and should receive the attention of the council at once.

All parties will bear in mind that the registration book closes twenty days before the election and those wishing to cast their votes in the next election will have to register before that time. Remember that you cannot register up and even on the day of the election like some did in the late primary. That was optional with the democrats. This is a different matter and the time is fixed by law and cannot be varied from the least bit. Bear this in mind and don't get left.

A right funny occurrence took place up at Oak Grove the other night when at that time Miles Newberry, a half idiot, wanted to join the church. They didn't wish him in the church with them and when the minister got ready to open the door of the church for the reception of new members, Miles was coaxed out of the house by an old brother and kept away until that part was over. This was a right good way to get rid of the man without either taking him in or making him mad. The question is, where will Miles go to get into the church, and what will become of him?

The moonshiner from White county was pretty bold in his business last Saturday, having set up in the woods near Com. Baker's farm and sold out a full barrel of liquor and returning home without being caught although he got in a very close place. City Marshal Harbison seeing various parties coming in with jugs and bottles went out but found that the tiger was beyond the corporate limits. Shortly afterwards Deputy Collector Henderson of Jasper was coming down the Cleveland road and meeting a number of drunken men asked some of them if they knew where he could get some liquor. Not knowing him they told him where he could find it but when he got to the place the man had sold out and was absent. After Marshal Grizzle came in from Dawsonville he made a search but all were too late.

Dr. Stow now occupies the building recently vacated by Rev. Mr. Parks.

The Consolidated are getting the Hall House in tip top shape for offices.

C. S. Webb, of Athens, and Mr. Mrs. Hankinson, of Augusta, were in the city last week.

A few good carpenters will find employment by applying to F. W. Hall, Dahlonega, Ga. 2t

John Southard's saw mill is now located up at John Butler where any one can get good lumber desiring it.

We would like to get the following back numbers of the Nugget if any body has them to spare: Dec. 29th, Jan. 5th, 12th, 19 and 26th. Also April 20th.

The electric storm of Saturday afternoon burnt the fuse in the incandescent lights at Hall's Villa, and played about on the wires generally but did no other damage.

B. F. Anderson, a candidate for treasurer requests us to state that owing to the sickness in his family he has been unable to go out and visit the people but will call on them as soon as possible.

We notice this week that the Consolidated and Hall Mide Company's have been taking stock with a view of the Hall Mide Co's stock being absorbed by the Standard Co. first of next month, so we are informed.

Maj. Geo. T. Barnes and lady of Augusta, Ga., have spent several days in Dahlonega since our last issue. Maj. Barnes has served in congress and held other important positions. We are always glad to have a visit from such distinguished gentlemen.

We have decided to allow parties wishing to discuss the political situation on either side one column each week, matter to be in by Tuesday. All over a column two and a half cents per line. In discussing a candidates record it must be done in a respectable manner.

One fellow who visited Lumpkin camp meeting Sunday got so full of intoxicants that he went off into the woods to take a nap of sleep and while dreaming either sweet or un pleasant dreams the rest of the crowd came off and left him and he had to foot it home, reaching Dahlonega a short while before day Monday morning.

Miles Newberry, who lives out in the country some distance, frequently comes into the city on a begging expedition, having appeared so much that the people have gotten tired of his visits and help him but little. So last week he undertook a new scheme. He called at Capt. J. W. Woodwards, where Mr. King, a printer was sitting in the porch and informed him that he had been called to pray in public. Mr. King informed him that he had come to the wrong place he guessed. Capt. Woodward heard the man about that time and good Samaritan like called Newberry into dinner, who didn't wait for the second invitation but rushed in and went to filling up without even asking the blessing.

The other night at one o'clock as Dr. Jones was returning from seeing a patient at Mr. Cayenders he heard some one which was like the negroes song: "Heard a voice and couldn't tell where." It was between James Worley and Mr. Cayenders. No object could he see—only heard a voice which asked him "what time of night is it?" The Doctor asked who he was and where he was at but he never gained any information and is at a loss to know what it meant. Very often men who claim that they are called to preach get mistaken in hearing a voice of this kind by not waiting long enough to see. Had Dr. Jones been aspiring for a position of this kind anxiously like some that we know of he would have gone right off at the first utterance without waiting for the unknown object to complete the sentence, got him up a congregation and told them that he had been called to preach.

H. F. Anderson has commenced the erection of a residence on his lot below Mayor Prices.

We are glad to state that Miss Carrie Harbison, after several days severe sickness is improving.

The corn crop is turning out much better than was expected and will not be near so short as was first anticipated.

The Temperance Union will hold its regular monthly meeting at the Methodist church next Sunday evening. An interesting program is being arranged.

Bear in mind that the public school in Dahlonega begins next Tuesday. Be on the first day if you intend to attend it. This will enable you to keep up with your studies.

Prof. Wilber Colvin has just been appointed by the state president of the Epworth League to be the League district secretary for the Dahlonega district. This is the largest district in the state.

The cleanest, nicest, nearest whole grain rice you have seen is at B. R. Meaders & Sons, and the price is two and a half cents lower than is usually charged for cracked yellow rice. 2t

Mr. Andrews, of Dawson county, informed us that he found a negro infant in a well at the premises formerly occupied by James Roberts on yesterday which he had contracted to clean out, but quit.

Merchants should be very careful and not sweep newspapers out on the streets. One came near causing a mule to run away the other day. A little caution might save an accident and some one's life.

The pocket book lost by Rev. James Wood Pough, while on his way from Porter Springs to Gainesville, containing \$92 in money, a check and other valuables, recently, has not found its way to the owner. Is it possible that the finder is dishonest enough to keep a preachers money?

Jim Roberts, col., who has paid more fines for whipping his wife than any other man, either white or black, in the country, came up from Gainesville this week and had another fight while he and his mate were dissolving copartnership, afterwards leaving out for "Alabama." That great monster called jealousy was the cause.

Judge Gaston, of Gainesville, while up this week, joined the "Sons of Rest" by sitting out on the benches in the court house yard and relating to his friends many things that occurred here while he was a citizen of this place long years ago. The Judge always grows younger in his imagination when he visits Dahlonega and his mind wanders back to his boyhood days—the happiest days on earth, which every one would love to call back if they could.

For several weeks a party has been occasionally visiting Dahlonega with a knap sack supposed to contain blockade liquor and finding such a ready sale for the article was joined last Monday by another stranger, who made their way in the vicinity of the mines where it is supposed they got rid of the beverage and returned to the mountains. Marshal Harbison paid them a visit but the knap sacks were closed but well filled, the sale not having commenced, therefore had no authority to molest them.

Col. Z. B. Hargrove, of Waycross, Ga., died in the lower part of this county on Tuesday last. Some time ago the deceased was stricken with paralysis and it was believed likely that a change in the climate might benefit his health, but the stroke was more than he could bear. Col. Hargrove had recently purchased mining and other property in Lumpkin county who had a great desire to commence mining operations but his labors have ceased and some one else will have to take his place. The Colonel was a very prominent attorney of his city, was postmaster and held the U. S. Commissioners place.

Lumpkin camp meeting was only attended by a few from Dahlonega last Sunday. Quite a number of candidates were on hand. We suppose that everything passed off quietly and no one killed or even shot.

We had the pleasure of becoming acquainted with W. H. Crawford, of Nashville, Tenn., this week who visited us for the first time. He visited the mines and was very much interested in what he saw here during his stay. Mr. Crawford is of the firm of Crawford & Co., southern colonizers, real estate, rental and loan brokers, doing business in that city.

The picnic at Oak Grove last Saturday was well attended and free from the use of any intoxicants causing it to be a day of pleasure and happiness. A few candidates were on hand but didn't disturb any one—they sit off on a log and looked on with their thumbs in their mouths. Speeches were delivered by prominent gentlemen from other counties making it an interesting occasion, more especially when the Sunday School scholars recited their pieces so well.

W. J. Burt, of Burtshoro, Ga., was arrested by U. S. Deputy Marshal Landers, of Gainesville, last Tuesday on a warrant sworn out by Post Office Inspector Berry, of Atlanta, charging him with using the mails in sending a letter to O. C. Scupin, of Auraria, of such a nature as to be contrary to the postal laws of the United States. It seems that Mr. Scupin was owing Mr. Burt and he addressed him a very "salty" letter some time ago enclosed in one of his envelopes used in a case where he believes he has not been treated right after a customer carries off his goods on a credit with the following language: "A Death Knell to Deadbeatism," followed by more similar words, offending Mr. Scupin and the matter was placed before the officials, resulting in the arrest of Mr. Burt as before stated and the case came up before Com. Baker, who being the defendants attorney in other matters, requested Com. Gaston, who happened to be in Dahlonega at the time, to try the case. He did so and the result was Mr. Burt had to give a five hundred dollar bond for his appearance at the U. S. Court and what will be the final result we cannot even guess at. Mr. Burt told Judge Gaston that he had used a thousand of these envelopes. The Judges reply was that he had violated the law that many times.

Some fellow who was in Dahlonega some days ago trying to get a carpenters job without even having a claw hammer has struck a streak of good luck over in Gaddistown sufficient to keep the wrinkles out of his stomach for some time without having to strike a lick of work. As he was on his way from Dahlonega some ten or twelve days ago he struck Gaddistown just before dark without a nickle in his pocket, enquiring where a man in this condition could get a nights lodging. The stranger was directed by a person to a certain church member—that there was a revival going on in the settlement and for him to go to church with the man of the house and sit up in the Amen corner and he would be all right. This he did, and to make himself more popular got up after the minister had finished his sermon and talked about religious matter. After services his scheme worked as if by magic, being invited home by many kind people. He couldn't accept but one at a time but made it convenient to stay over and is yesteating free lunch, attending the revival and talking religion in the meantime joining the church, telling them that he had a mother away off yonder and wanted to be baptized before he saw her for fear that he might die.

As the matter now stands they will have to close the meeting and baptize the man in order to get rid of him, else he will eat up much that has been earned by the hard toil of the citizens of Gaddistown.

Wants the Hands to Work on Sunday.

TOLEDO, O., Aug. 18, 1900.

DEAR EDITOR:—

You will doubtless recognize the enclosed clipping from the Nugget of the 17th inst. It has occurred to me that in publishing this kind of stuff you are standing in your own light and doing imparable injury to your little village to whose best interests you would have people to believe you are devoted. Every week you boast of increased circulation of your paper. Did it ever occur to you that this comes about, not because of your superior talent as an editor, but only because of the interest excited by reason of the operations of the Consolidated Co. A company that has done more to advance the interests of your town and county than all the natives who have lived and died there since the white settler came to that region. I have no doubt but you, Mr. Editor, are a very good man, but I am equally certain that the managers of the Consolidated are just as good and perhaps from their more extended intercourse with the world, somewhat broader in their views.

While it is the unquestionable right for every man to hold such views on every question as he pleases and to express them too. (This seems on some subjects to be a privilege confined to the Northern States.) Do you not think that it would be advantageous to all parties concerned to allow the Consolidated to manage its own affairs in its own way without envious comment from you? This company has gone into your country and by fair dealings, increased the wage rate and strict attention to their own business establishing for itself an enviable reputation. They have resisted many times the temptation of importing labor, preferring to give their wages to the unemployed natives and making a price for this labor largely in excess of any thing heard of before in the region. The example of this company has stimulated other Northern capitalists to make investments in your country. And this is but the beginning of the most prosperous era Lumpkin county has ever seen unless such men as you are determined to kill the enterprise by spreading discontent among the working men by your inconsiderate remarks on the methods of the company that do not just coincide with your ideas. If the company are doing wrong let them take the responsibility and the penalty without a kick from you who are one of the beneficiaries of their going among you. Capital is very timid and will hesitate a long time before investing in a country where the narrow ideas of the inhabitants may kindle a fire that will work its ruin. Think this matter over and see where you are at. H. M. NESMITH.

The gentleman is very much mistaken when he thinks that we have any malice towards this enterprise or a single member of the company for it has always been our desire to see them prosper and do yet. We only referred to the matter to save the laborers trouble because they are the ones who have to suffer the penalty under our laws—not those employing them—as shown by the act published last week. The law here provides for certain Sunday work, but not what they have been doing. Every thing they have started was commenced on Sunday—the mill, electric lights and even the chlorination plant. This was not necessary. Now as to the increased wages we notice that the natives who roll the wheelbarrow only get 80 cents per day while the Western men are given big wages, notwithstanding the company have been of much benefit to this country the Lord has benefited us more and we are disposed to worship Him instead of the Consolidated Co. And those not inclined that way the laws of Georgia make them do it.

In a recent number of The Lancet, Dr. Philip calls attention to the fact that if a small round pill is carried in the mouth, thirst disappears, and perspiration is diminished. The doctor states that he has gone as long as eight and a half hours in a boiling sun with nothing but dry biscuits and cheese for a lunch, and at the end of that time was not particularly thirsty.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and gave her a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering. Yours truly, Mrs. Geo. F. Burnick, Liberty, R. I. For sale by E. W. Hall Mide Co.

A marriage ceremony was performed in Toronto recently, with a substitute for the ring which, though odd and amusing, was appropriate for the occasion. The couple went over from the American side of St. Lawrence river, but forgot to take a ring. As there was no ring to be had in the house the clergyman sent for his wife's sewing scissors and, with the finger-clasp completed the ceremony.

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures, have made it a great favorite with the people everywhere. For sale by E. W. Hall Mide Co.

We are all inventors, each sailing out on a voyage of discovery, guided each by a private chart of which there is no duplicate. The world is all gates, all opportunities, strings of tension waiting to be struck.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by E. W. Hall Mide Co.

An exchange says that Bryan has repeated his speech to a phonographer so as to enable us to hear it by dropping a penny in a slot.

A Pale Face
Is a prominent symptom of vitiated blood. It is proved, with pinpoints, the evidence is complete. It is nature's way of warning you of your condition.

Johnston's Sarsaparilla
never fails to rectify all disorders of the blood, slight or severe, of long standing or recent origin. In thirty years record guarantees its efficacy. Sold everywhere. Price \$1.00 per half bottle. Prepared only by **JOHNSTON'S MEDICINE COMPANY**, Detroit, Mich.

For sale by The Frank W. Hall Mide Co., Dahlonga, Ga.

Machinery

If You are interested in Gold Mining write to Fraser & Chalmers, 1305, 12th Street, Chicago, Illinois, for catalogue of Stamp and Huntington Mills. Free Vanners, Hoisting and other machinery. To obtain lowest prices examine the catalogues and write Fraser & Chalmers reserving the machinery needed, and your inquiry will have prompt attention.

NERVITA MEDICAL CO.
Canton & Jackson Sts., CHICAGO, ILL.

For sale by E. W. Hall Mide Co.

THE Crown Mountain Gold Mining & Milling Co.

The Crown Mountain properties are situated in the very heart of the Georgia gold belt and are in the leading center of all the leading gold veins of the Dahlonga district. They embrace what is believed to be the mother lode of the Appalachian Range.

The extensive and rich ore bodies in sight upon these properties assure long, continuous mining operations and the indisputable guarantee of the permanent and increasing value of the stock of "The Crown Mountain Co."

The projectors of this company were the first to revive the mining interest in this district in 1896. After three years of careful and exhaustive examination of all the mines of the district of reputation as gold producers, and they had the choice of all, they selected the Crown Mountain combination as the ideal gold mine of the district which would yield or produce the most gold with the least expense. This opinion is shown by all the mining engineers, mining experts, miners and citizens of any standing in the district who are familiar with the properties. As an evidence of this we here state that more of the citizens of the town of Dahlonga and vicinity have taken stock in this company than have in all the other companies combined that have organized in this district.

The company is to be managed by practical business men—who have given much of their time to mining and mining operations, and always with unvarying success.

The present directory is for the most part composed of men who have had much experience in the mining enterprises, and under its efficient and economical management, and by reason of a visible gold supply that is practically inexhaustible, an investment in the stock of this company is undoubtedly safe.

The capitalization of the company is not commensurate with the visible productiveness of the properties and is meagre compared with the capitalization of other justly celebrated mines in the district, but the management believes it will be able to make the stock worth above par.

We invite all prospective investors to make a personal inspection of the mines. We also invite them to examine all the other mines in the district—compare the quality and quantity of the ore and the facilities for economically treating the same. We have no fears of where the choice will fall.

Until further notice of advance in prices, the stock of this company will be sold at the minimum rate of \$5.00 per share. For further information apply to J. F. or J. H. Moore, Dahlonga, Ga., or Donovan & McCabe, 10 & 12 West Spring Street, Columbus, Ohio, or Gen. Warner, Marietta, Ohio.

ANNOUNCEMENTS FOR THE SENATE.

To the voters of the 3rd Senatorial Dist. At the solicitation of many friends I have decided to make the race for the Senate of this district and in doing so most earnestly ask the support of the voters of the district, promising if elected that I will ever have an eye to all interests of my country, district and state. Respectfully
J. P. CASTLEBERRY.

FOR THE LEGISLATURE.
We are authorized to announce the name of V. A. Higgins as a candidate to represent Lumpkin county in the next legislature subject to the voters at the general election.

FOR TREASURER.
Thanking the people of Lumpkin county for past favors I announce myself for re-election to the office of county treasurer subject to the October election. Promising you if elected to discharge the duties of such office to the best of my ability.
B. F. ANDERSON.

FOR CLERK.
Upon the solicitation of many good citizens throughout this county I respectfully announce myself a candidate for the office of Clerk Superior Court and shall feel very grateful to the voters of the county for any assistance they will give me in the general election next October. If elected I promise to give the duty of the office my prompt and careful attention.
A. W. CAIN.

FOR TAX COLLECTOR.
We are authorized to announce the name of C. W. Tolson as a candidate for tax collector of Lumpkin county at the ensuing election in October.

To the voters of Lumpkin county: I respectfully announce myself as a candidate for tax collector and ask your support at the ensuing election in October, promising if elected to perform the duties of such office to the best of my ability.
W. H. DONALDSON.

We are authorized to announce the name of L. B. Stangel as a candidate for tax collector of Lumpkin county at the ensuing election in October who most respectfully asks the support of every qualified voter.

FOR TAX RECEIVER.
We are authorized to announce the name of L. B. Walker for tax receiver of Lumpkin county who earnestly asks the support of all classes, and promises if elected to do his full duty to please the people.

FOR SHERIFF.
I respectfully announce myself as a candidate for sheriff, promising you if elected that I will perform the duties of such office to the best of my ability. Respectfully
D. S. FLEWITT.

I respectfully announce myself a candidate for sheriff of Lumpkin county, and I solicit the support of the voters of said county at the general election, to be held on the first Wednesday in October next.
LEWIS M. WELLS.

To the Voters of Lumpkin County: I respectfully announce myself as a candidate for sheriff and ask the support of the voters at the general election.
F. R. LOWMY.

FOR ORDINARY.
I respectfully announce myself as a candidate for the office of ordinary for Lumpkin county, and ask the support of the voters of said county at the general election to be held on the first Wednesday in October next.
G. G. EVANS.

Feeling thankful to my friends for their support in the past I now announce myself as a candidate for re-election to the office of ordinary and solicit a continuance of their support in the election which comes off on the first Wednesday in October. I desire the approval of my administration at the ballot box.
W. H. C. TATE.

FOR CORONER.
The friends of John W. Satterfield announce him as a candidate for Coroner trusting that he will receive the support of all.

Georgia, Lumpkin county: Sarah S. Adams, having made application for a twelve month support out of the estate of James M. Adams, and appraisers duly appointed to set apart the same having filed their report in the election which comes off on the first Wednesday in October. I desire the approval of my administration at the ballot box.
